**An Historical Fact**

Which seems to be forgotten is that there never was a Farmer's party while the Liberals were in power. During the McKenzie regime, there was no farmer party. From 1896 to 1911 during the Laurier regime there was no farmer party. Why? because the Legislature given by the Liberal party government was satisfactory and there was no that account no reason for a Farmer's party.

**Liberals Provide For Labor**

In 1900 soon after the Liberals came into power they created a department of Labor which had for its head W. L. McKenzie King who was the Liberal party leader of the day.

The record shows that Liberalism has done many things for labor.

First, established the "Labor Gazette".

Second, suppression of the Sweating system.

Third, the fair wage scale.

Fourth, settlement of labor disputes.

Fifth, restriction of alien contract labor.

Sixth, restriction of oriental labor.

The Fire Bells do not Tell You Whether there is a Financial Loss or not, The Insurance Companies Tell You That.

The clang clang clang of the fire engine wakes many a man up on the necessity of taking out insurance before it is too late. Don't wait for the hook and ladder company; they don't sell insurance. We do.
