#### Married

EARLY - LAWSON - On December 28th. Arnott Early, son of Mr. and Mrs. Phil. and Township. lip Early of Brampton.

McPherson-At Netval, on Thursday, the late Alexander Mcl'herson, in her 90th sear. BENNETT-In tieoryctown, on Tuesday

Jammry 3rd, 1922, Robert Hennett, his 78th venr. The funeral will take place from th residence of his daughter. Mrs. Coften Main St., on Thursday, at 3 p.m. Inter ment in Greenwood Cometery.

THE PRACTICE OF many school children in pulling the cape of their playmates while coming home from school and causing the victinis to chase around bare head ed after their lide, is causing more colds among the kiddies and consequently more doctor bills for the parents than the average citizen has probably any idea of.

### The New Cabinet

Even the muscles number between four and five thousand. They provide thrills in hunting as great as those

Inventor of the Steamboat. Fulton is famed as the inventor of the steamboat. Authentic history tests that he was not the inventor. In 1543 Blasco de Garay, a sea cap tain, of Spain, exhibited in the harbor of Barcelona, in the presence of Charles V. and his court, a steam boat capable of a speed of three miles an hour. For nearly two hun-The Junior Warden's toast and tion was lost sight of, and not till was the subject taken up again European scientists became interested, and the result was the construc-

Saone by the Marquis de Jouffrey in 1759. In 1788 Patrick Miler, of Scot-At the nomination meeting on built in 1789, when seven miles an that belongs to Blasco de Garay, who ante-dated Fulton by two hundred Hidden In a Glacier.

It is generally known that glaciers move - that at Grindelwald at a speed of about two-fif.hs of an inch Those wishing to hear the other per hour-and within the next few days an experiment will be begun that is expected to culminate 150 years hence. It is intended to throw into the crevasse of a glacier on the Crastagueza at Pontresina a stronglymade brass box containing various documents concerning the death of three Zurich tourists who were killed at the spot last winter. The purpose is to establish the speed of the glacier movement, and it is calculate ed that the glacier will give up the box at the termination of its journey in about 100 to 150 years. One of the documents in the box asks the
