TELEPHONE

"Oh, It's Good to Hear Your

THE night wind rattled the sash as she sat on the bed in her drab hall bed-room. Lonely, discouraged, she seemed to have lost her grip of things in the hig unfriendly city. And then — the telephone fingled imperatively. A cheery voice called up the stairway, "Miss Jackson, your mother's calling on Long Distance."

How many of us realize what that means to the girl in the little hall bed-rooth esting her heart out with loneliness?—to the boy at College or school plugging in a half-hearted way to make good in "exams"?—to the sky school girl surrounded by strange faces?—to the traveler deprived of home and dear ones?

She needs the encouragment that only your voice will give. He needs a helpful word, doubly welcome because it comes from you. A Long Distance chat will give them a new outlook on life—stimulate them to new efforts—help them to make good. Their faces will glow with the light of a new courage, and, "It's good to hear your voice" will be music to your ears!

Station-to-Station service with lew Evening and Night after 8.26, has brought Long Distance within the reach of every one. After 8.26 P.M. Station-to-Station rates are about half the day rate. At midnight they become about one-quarter the day rate. Station Station

Cattle Cases

Two interesting cattle cases were tried last week before Judge Elliot at Division Court sittings.
