WHEN YOU ARE about to buy produce or other goods from persistent peddlers, just ask yourself this question: "Do they pay taxes, support the churches, schools and public library, patronize local entertainments, merchants and banks, belong to and support local societies and other organizations? If they don't, what are they doing for your town and mine?"

MANIFOLD have been the accomplishments of the Georgetown Horticultural Society and still greater will be its power for accomplishing good in the beautification of this town if its membership is augmented to an extent commensurate with its work.

Studebaker

The New LIGHT-SIX

\$1495

f. o. b. Walkerville, Ont.

Studebaker is the world's largest builder of six-cylinder motor cars!

1921 was the TEST YEAR for motor car values. It was a year of discriminating buying. People did not buy cars, last year, as the result of a whim or fancy. They bought on the basis of intrinsic values.

And in such a year Studebaker built more six-cylinder cars than any other manufacturer in the world.

Studebaker led in 1921 because it built—complete in its own plants—cars of superior design, materials and workmanship, at the lowest possible prices.

Studebaker will lead again in 1922 because, in the new models, the elements of the new year have been led to the proven values of the old. Be sure to see the new models now.

Look for these Features in the New Light-Six:

40-H.P., 3 1/2 x 4 1/2 desirable head motor of exclusive Studebaker design. Intermediate transmission. Valves inclined at 20-degree angle for purpose of greater economy and smoother performance.

Patented internal hot-spot, which means greater efficiency. Completely machined crank-shaft and connecting rods.

Cowl ventilator connected from dash. Cowl parking light. Thermosiphon-controlled cooling system. Windshield wiper. Large glass plate window in rear of top.

32 x 6-inch coil tires.
