

THE LADIES' AID
The old church bell has long been cracked. It will ring but a groan. It seemed to sound a funeral knell. With every broken tone. "We need a bell," the brethren said. But axes must be paid. We have no money we can spare. Just ask the Ladies' Aid.

The shingles on the roof were old. The rain came down in rills. The brethren slowly shook their heads. And spoke of monthly bills. The Chairman of the Board arose. And said, "I am afraid. That we shall have to lay the case before the Ladies' Aid.

The carpet had been patched and patched. Till quite beyond repair. And through the aisles had on the steps. The boards showed hard and bare.

"It is too bad," the brethren said. "An effort must be made. To raise an interest on the part of the members of the Aid.

The preacher's stipend was being paid. The poor man blushed to meet. The grocer and the butcher as they passed him on the street. But nobly spoke the brethren then: "Pastor, you shall be paid! We'll call upon the treasurer! Of our good Ladies' Aid.

"Ah!" said the man, "the way to heaven is long and hard and steep. With slopes of ease on either side. The path 'tis hard to keep. We cannot climb the heights alone. Our hearts are sore dismayed. We never shall get to heaven at all. Without the Ladies' Aid."

—Husband, (angrily)—I was a fool when I married you.
—Wife—Aren't you a fool still?
—Husband—No, I am not.
—Wife—Then you should congratulate me upon my success as a reformer.

It's the Valleys in Paint That Make it Poor

The Valleys are the thin streaks. The Hills are the thick streaks.

PAINT streaks are caused by the brush marks. No matter how much it is brushed, if the paint is cheap the brush marks are bound to show. Good paint levels up to a smooth surface. Cheap paint dries with hills and valleys that are alternately strong and weak.

Just as a chain is only as strong as its weakest link, so is a film of paint only as good as its thinnest places—the valleys.

Most paints are made of only three things. Lowe Brothers High Standard is made of six—three more ingredients that exhaustive laboratory and practical tests have shown to be necessary to make good paint.

Add to this the fact that these ingredients are more finely ground, and you can understand why High Standard will always smooth out to a uniformly thick surface. Which is also the reason it lasts longer, and looks better as long as it lasts.

Come in and see the sample panels and ask for literature.
