#### Announcement

The Minister of Education annonnes to all concerned that this as heretofore the results of the Departmental and Matriculation to them for their splendid co. - Carried. examinations conducted in the operation with our brigade. High and Continuation Schools throughout the Province. This situation is due partly to the change in the Regulations where vide their examinations over sevoral years and partly to the fact that the number of candidates

this year has increased greatly. The increase in the number of candidates will necessarily extend by at least one week the time required to read the candidates answers. It is hoped, however, that this loss of time will be offset by the gain due to not having to prepare lists for the newspapers. Accordingly it is expected that the certificates will be mailed to the Principals for distribution to the candidates at least as early as heretofore. The Principals concerned are requested to make timely arrangements to send on the certificates to the candidates im mediately on receipt of the same from the Department.
