 "He's not in his office just now!"
 How often have you put in a call for — say Mr. Brown of the Robinson Machine Company — and when connection was made, learned that he was out?
 Because you asked for Mr. Brown, it cost you — because of the extra service we rendered — about 20% more than if you had asked simply for the Robinson Machine Company.
 The majority of Long Distance users find that if they put in a call for a firm — not for an individual — at the lower Station-to-Station rate, they can always get in touch at once with the particular person they prefer to talk with, or with a deputy who will answer the purpose.
 Our gain will come when you appreciate the speed and economy of Station-to-Station service. After 8.30 P.M. the evening rate on Station-to-Station calls is only about one-half the day rate.
