In Memoriam
EVANS—In loving memory of John Evans who died July 12th, 1921.
The Lord keep watch between us,
The ever present Father,
No love like His so mighty,
To keep and to defend,
Thought absent from each other,
We are not far from Him,
Let not our courage falter,
Let not our faith grow dim,
Though time and space may sever,
The masters servants here,
Tis only for a season,
The meeting time draws near.

Special Notice SHOE REPAIRS

The only fair way to do any kind of a job is by (piece work price) so in the future I will charge so much for the material used and a reasonable price for the time it takes to do the work, this will cause my prices to vary, but in shoe repairing charging a customer who wears a 5¢ shoe the same price as the one who wears a 10 or 11, is not really the proper thing to do, as the party with the small feet is helping to pay for the one with the larger. I range my prices according to the size of the sole or heel used not the size of shoes. I soles and heels will range from 75c to \$3.00. Whole soles, new heels, repairing wells, sewing, toe caps, etc. will cost extra. I don't repair while you wait, as this is not a proper or paying system. I have the experience, tools, machinery also the largest trade for repairing in this section of the county. All repairs receive the very best and prompt attention. Shoes called for and delivered.

Jobs Depend on the Safety of the Forests

DON'T

DON'T take any chance with fire in Ontario's forests.

DON'T throw away cigarette or cigar butts. Fire is a deadly enemy they are out.

DON'T neglect to cover out your fire with lots of water.

DON'T build your camp fire against a rotten log or stump; not on a spot cleared down to the tree well below, or by the edge of the water.

Build it in a ferny fireplace, or on a fat rock, or on a spot cleared down to the tree well below, or by the edge of the water.

DON'T forget that the upper layer of ground in the forest consists of partially rotted wood which will burn.

RIVER DRIVERS, shanty men, pulp loggers, and all men who work in the lumber woods, on the river or at the mill—get this: Your job depends on keeping forest fires from burning up the bush.

Every time you leave a camp fire or a smudge burning you are taking chances on a forest fire that will do you out of a job. Every time you throw away a burning match or a cigarette, or drop the "heel" of your pipe on the ground, you are taking a chance. In summer time, moss, dead wood, dry leaves or the regular wood-fibre soil of the forest are all ready to burn. Millions of feet of timber and pulp are being burnt up that way every year.

Ontario's forests are not growing fast enough to keep up. Forest fires will do you out of a job if they keep on a few years more. Watch yourself.
