Fruit and Vegetables

**Season's Prospects Detailed by
the Dominion Fruit Branch**
The July fruit and vegetable re-
port of the Fruit Branch of the
Dominion Department is full of
matter of importance to growers
and shippers. Apples on the
whole promise exceedingly well in
Ontario, although Spy, Baldwin
and Greening promise to be light.
In the other apple-growing prov-
inces a crop, 25 per cent lighter
than last year is indicated.
Peaches and plums promise well
in Ontario; so too do cherries and
currants, while grapes and rasp-
berries are likely to prove a fairly
good crop, but, pears appear to be
below the average.
A larger average than usual has
been seen to onions and one per-
cent less to potatoes. The Prairie
Provinces, British Columbia,
and the Maritime Provinces all
show a rather larger decrease in
the acreage devoted to potatoes
and Quebec shows an increase of
six per cent. over last year. In
British Columbia, peaches, plums
and prunes promise to be better
than the average, apricots, rasp-
berries, and currants about an
average, cherry fair and logan-
berries light. An increase of the
acreage devoted to onions is re-
ported.

**THE GREAT WERE ONCE AS
YOU**
The great were once as you,
They whom men mightily to-day
Once groped and blundered on
Life's way,
Were fearful of themselves, and
thought
By magic was men's greatness
wrought;
They feared to try what they
could do;
Yet fame hath crowned with her
success
The selfsame gifts that you pos-
sess.
The great were once as you,
Dreaming the very dreams you
hold,
Longing yet fearing to be bold,
Doubting that they themselves
possessed
The strength and skill for every
task.
Uncertain of the truths they knew
Not sure that they could stand to
fate
With all the courage of the great,
Their first bold venture made;
Seeming to cry for aid,
They dared to stand to fight alone,
Took up the gauntlet life had
thrown,
Charged full front to the fray,
Mastered their fear of self, and
then
Learned that our great men are
but men.
Oh, man, go forth and do!
You, too, to fame may rise;
You can be strong and wise.
Stand up to life and play the man
You can if you'll but think you
can!
The great were once as you,
You envy them their proud suc-
cess,
'Twas won with gifts that you
possess.

Glen Williams
Our lacrosse team won from
Woodhill here last Thursday
evening by a score of 5-3, the Glen
scoring their first goal in 1 min-
ute from the start, first quarter
ending 3-0 in favor of the Glen.
During the second period Wood-
hill revived a little and both
scored one goal. There was con-
siderable rough play in this period
Woodhill again came strong dur-
ing the third period scoring two
more goals which evened the
score 3-3. This made things in-
teresting as well as exciting.
With the Glen leading 3-2 at
scoring two goals in the last few
minutes, some excellent lacrosse
was played in this period.
Mrs. Robertson and Tom Scott
of Galt, Mr. and Mrs. Levine and
family, and Miss Levine of
Toronto spent two weeks with
Mr. William Scott.
Mr. and Mrs. John Hopkins of
Regina visited their aunt, Mrs.
Walter Marchmont, over the week-
end.
Mr. Wm. Scott met with an ac-
cident at the Provincial Paper
Mill last Saturday. While put-
ting more tar into the boiler a
pinch dropped of making a splash
which went on one side of his
face, scalding and blistering it.
He is able to go on with his work.
Our Sunday Schools Picnic was
held last Saturday at Burlington.
Both young and old had a most
enjoyable day. The weather was
ideal.
Mr. Kirby has built a new ver-
andah to his house. It looks fine.

Live Stock Poisoned
For some time the live stock of
F. C. Willmott and Bert Feather-
stone of Trafalgar, through whose
farm the Sixteen Mile Creek runs,
have not thriven. A pedigreed
shorthorn heifer and about five
pigs belonging to Mr. Willmott
have died and Mr. Featherstone
has lost five sheep. Dr. Felzer
performed a postmortem on one of
Mr. Willmott's pigs and Dr. C. H.
Healop opened one of Mr. Feather-
stone's sheep. The vets agreed
that the animals had been poison-
ed. All the stock drank water
from the creek, which is greatly
discolored and, it is alleged, is con-
taminated in Milton. Lately
Mr. Willmott has been giving pigs
river water, with good results,
but he has not enough for his cat-
tle. Crown Attorney Dick has
complained about the matter to
the Provincial Board of Health.
There may be legal proceedings if
it can be proved that he is re-
sponsible for poisoning the water—
Champion.

Acton
It is officially reported that
the 1,268 hives of bees in Halton
County produced 91,000 pounds of
honey last year, an average of 68.7
pounds.
—This is a great summer, if
your digestion is good and your
purse doesn't weaken.
—Cost of living is said to be
much reduced, but so far as most
of us notice the reductions appear
to be on things that people
don't need very much.

Notes and Comments

PRIME DRURY in strong on
Farmer party being known as the
Progressive. The farmers, how-
ever, are quite content with their
own name in comparison with one
that may or may not have any
significance.

THE TREMENDOUS profits re-
ported at Toronto and Ottawa by
the Government dispensaries sup-
plies a good nest egg for the Pro-
vincial treasury—and it also evi-
dences the fact that there are a
lot of people in this Ontario of
ours who are too sick to be with-
out whiskey, or think they are.

KEEP YOUR EYES wide open to
clean the many beauties of Nature,
and Art. We know of a test a
fringe of ours employ, viz: to keep
a record of what is observed each
day that is worth while. A pad
and a lead pencil are all you need
and a good memory is the neces-
sary equipment. Test it out
for yourself and you will be
pleased with the increased light
when you go out to "see things."
The practice is worth while to
cultivate your power of observa-
tion and ability to recall at the
close of each day. What did you
see to-day?

IF YOU DESIRE to reach the top
of the ladder you must climb and
often without missing a rung in
the ladder. It is not usually a
"get there" plan to be too "per-
nickily" as to some of the methods
and plans to be employed, so long
as they are honorable. Laziness
is one of the chief causes of fail-
ure while a good second is instabil-
ity, switching from one thing to
another. Pluck, Patience, Perseverance
are 3 P's in a pod that have stimu-
lated many a person to overcome
difficulties and "Get There." Keep climbing
is the road to the top.

HERE IS A STORY published in
an exchange which shows how
greatly the people of a community
in Kansas appreciated their editor:
In appreciation of the work of a
Kansas editor for their community
a bunch of citizens recently pre-
sented him with a dog. On the
same occasion a quartette
from a local church sang a few
sweet songs and a minister made
a little talk. After the minister's
talk six husky men carried the
popular editor from the house and
placed him tenderly in a model
1922 plumbed sedan, and the whole
town formed in parade behind the
editor's expensive car. After the
parade the appreciative crowd re-
turned to their homes serene in
the thought of having provided
one bright day in the life of their
local news purveyor, even if they
did wait until he was dead to do
it.—The Fourth Estate.

A COMMODITY such as coal, upon
which depends the life of the peo-
ple, in general, should not be in
the hands of private individuals—
a fact which is being increasingly
impressed every succeeding dis-
pute with the miners. If private
ownership is inevitable then Gov-
ernment control is an urgent
necessity. These are points that
the public is becoming consid-
erably impressed upon, for almost
every year, of late, it is the public
that is hardest hit by strikes and
rumors of strikes in the hard coal
mines of Pennsylvania. The net
result of every cessation of activi-
ty amongst the miners has been
a scarcity of coal and higher
prices, with the public the victim,
of course. Coal miners and op-
erators sit back in contentment
knowing all this, so why should
they care about a strike? The
public be damned is the attitude of
both parties, and it is to be hoped
that one of these days the damned
public will be in a position to
wake up and assert its rights to
be something else but a target by the
coal men.

GAMERS are in love with two
women at the same time? It is
a question proposed by a newspaper
as a subject for summer-time dis-
cussion. The poets, who are sup-
posed to be our chief authorities
on such matters, are not unani-
mous. Tom Moore, for instance,
seemed to favor the affirmative,
when he sang:
'Tis sweet to think that wherever
we rove
We are sure to find something
blissful and dear,
And that when we are far from
her
We've but to make love to the
lips we are near.
On the other hand it was the
same Tom Moore who wrote that,
The heart that has truly loved
never forgets
But as truly loves on to the
close,
As a sunflower turns to her god
who she sets—
The same look that she turned
when he rose,
But somebody has pointed out
that the sunflower does no such
thing. The problem is further
complicated by the difficulty of
distinguishing between really lov-
ing a woman and merely thinking
you love her. A practical answer
might be that a man cannot love
two women at the same time if
either of the women knows it.

Henry Ford is said to be look-
ing for a way to spend his money.
He might try putting a little of it
in the liver.
