## LUCK OF THE HORSESHOE

The grocer had a horsehoe nailed  
Above his gilded sign.  
The teamster over his stable door  
Displayed no less than nine.  
The blacksmith fifty hung aloft  
An old and rusty one,  
The man that owned the next gar-  
age  
Alack! alas, had none!

The grocer's till was tapped by  
things that were not his.  
Who shot him in the back:  
The teamster and the through ex-  
press  
Collided on the track,  
The blacksmith drowned himself  
one day.

And lo, it's mighty funny,  
But that garage man's safe and  
sound  
And making lots of money.

## IF ONLY!

If only dinner cooked itself,  
And groceries grew open 24 hours,  
If children did as they were told,  
And never had a cough or cold,  
And washed their hands and  
wiped their boots,  
And never tore their Sunday suits,  
But always tucked up the floor,  
Not one forgot to shut the door!

If John remembered not to throw  
His papers on the ground, and if  
If he would put his pipes away  
And shake the kilt on the tray,  
Instead of on the floor close by,  
And always tipped up the door,  
And hung his hat upon the peg,  
And never had bones in his leg!

Alas! If wishes all came true,  
I don't know what I'd find to do,  
Because if no one made a mess,  
There'd be no need of cleanliness,  
And things might work so bliss-  
ful.

In time—who knows? they'd not  
need me!  
And this being so, I fancy whether  
I'll go on keeping things together.

## Ballinalad

The lightning struck a tree one  
day last week in Mr. H. Shortill's  
field in which the two boys were  
feeding sheep, and Richard, who  
was tending on, obtained a shock  
and knocked him down, but was  
able to get up again and was not  
any the worse of it.

Mr. Fisher, from Kitchener, is  
visiting his daughter, Mrs. Peter  
Ferguson.

Mrs. W. H. Kirk and daughter  
of Toronto spent a few days re-  
cently at Mr. John McKeachie's.  
Mrs. McKeachie and family  
of Bradford are spending a  
few holidays with their friend, Mr.  
F. Huggins.

Mr. Robinson and his sister from  
Hamilton spent Sunday with their  
sister at Mr. B. Shortill's.

## Government's Geographical

The attention of the holders of  
the five and a half per cent. war  
loan bonds maturing December 1,  
1923, is directed to the offer of the  
Minister of Finance to renew the  
loan on favourable terms. The  
last Canadian loan was placed in  
New York as a satisfactory price.  
The Minister is making his pre-  
sent financial operation entirely a  
domestic one by offering to ex-  
change the maturing bonds for  
new bonds bearing the same rate  
of interest, running for either five  
years or ten years as the bond  
holder may prefer. A further in-  
crement to the investor is that  
he receives a bonus of one month's  
interest. The terms offered are  
decidedly favourable to the invest-  
or and it is probable that a large  
part of the maturing loan will be  
renewed. Arrangements for the  
exchange of the bonds can be  
made at any branch of the char-  
tered banks. Holders who do not  
wish to reinvest will be paid in  
cash on the 1st of December.

## Garden Party at Glen Williams

The Glen Williams Athletic Club  
will hold a Garden Party on Fri-  
day evening, August 25th, and  
Field Day on Saturday, August  
26th, at the Garden Park, The  
Fox Fur Company will provide  
the full entertainment. On Sat-  
urday in addition to a whole day's  
programme of lacrosse and Athlet-  
ic events the committee have been  
fortunate in securing the services  
of "Walter Knox," world's all  
round champion athlete who will  
give several exhibitions during the  
afternoon. Glen Band will be in  
attendance both days.

## 40,000 Men Wanted

### To Harvest Western

### Canada's Crops

Latest reports from the grain  
fields of the West indicate a record  
yield. Forty thousand men are  
needed to harvest this crop. To meet  
this demand, special Harvesters'  
Excursions will be operated by the  
Canadian National Grand Trunk.  
Through solid trains will be  
operated to Winnipeg without  
change, consisting of convertible  
(berth) Colonist cars of latest de-  
sign. Restaurant cars will be at-  
tached to trains serving meals  
and lunches at reasonable prices.  
For fares, train services, etc., apply  
to nearest Canadian National  
Grand Trunk Agent.

## Notes and Comments

THOSE WHO DO NOT dance prop-  
erly in some U.S. dancing places  
get a card on which are the words  
"Discontinue Dancing." That is  
all that is said, but it is said to be  
very motivating and thoroughly  
purposeful. Something of the  
sort might well be done around  
here in cleaning up the dances oc-  
casionaly reported to be an ex-  
cuse for spending a pleasant even-  
ing. The good old-fashioned  
dances are too tame for to-day,  
but surely we have a right to in-  
sist that the dances used to be  
danced properly—or discontinued.

## AT KITCHENER, the other day

a young man was sentenced to  
serve four years in the Kingston  
penitentiary for passing worthless  
cheques.—He explained to the  
magistrate that if he went to the  
pen. his health might be ruined.  
Pretty good stuff, but not original.  
All the major thieves, bank break-  
ers and looters of the public have  
used the same argument and many  
of them have got away with it.  
That kind of logic is regarded as  
the exclusive property of the big  
thieves and we'll say that petty  
thief at Kitchener had some nerve  
in trying to shove himself in their  
class.

## MR. A. F. COOPER, the Toronto

geologist who declares that there  
is a subterranean sea, Sulphury, is con-  
fident that his conclusions cannot be  
established. He exhibits samples  
which, to the inexpert, at least,  
look like sulphuric acid, and he says  
that he is backed up by Professor  
Frankfort, Chief of the Geology  
Department of the University  
of Pennsylvania. The experts at  
Ottawa are sceptical; in fact,  
they deny the existence of coal of  
mineral value. Clearly the case  
is one for further inquiry, which  
could be made, without great ex-  
pense, as the coal is said to be  
near the surface.—Toronto Globe.

## CHILDREN SHOULD BE warned

against the danger of playing  
with strange dogs at this  
season of the year. Just where  
the phrase "dog days" got its origin  
we do not know, but probably from  
the reason that there are frequent  
dog fights in the summer  
months. Dogs are affected by the  
heat the same as humans. Even  
the family dog may snap at per-  
sons. Irritable dogs are not ne-  
cessarily rabid, nor does every dog  
bite at this time result in hydro-  
phobia. Dogs may be affected  
with rabies at any time of the  
year or in any climate. Regard-  
less of whether an animal is mad  
or not, all injuries inflicted by  
dogs or cats should be considered  
as potentially dangerous until they  
are proved to be otherwise.

## STATISTICS ARE OFTEN accused

of being unbecomingly dull, but what  
they bear a message that means  
dollars and cents to the business  
man they are regarded as a factor  
not to be taken lightly. How  
many people, for example, who  
regard themselves as fairly well  
informed on the industrial and  
agricultural situation in Canada,  
know that the total value of the  
wheat crop of the three Prairie  
Provinces is but approximately  
twice that of hay yield alone of  
Ontario and Quebec? Yet old  
figures prove this to be the case,  
for according to the Dominion  
Bureau of Statistics, the value of  
the wheat crop in the West for a  
four-year period up to 1921 was  
roughly \$80,000,000, while for the  
same period the hay fields of On-  
tario and Quebec produced revenue  
to the extent of \$18,000,000.

## BY A DOMINION LAW that went

into effect April 1st regulating the  
handling of baled hay, each bale  
of hay must now bear a tag show-  
ing the weight of the bale, in ad-  
dition to the name and address of  
the baler, penalty being provided  
to the extent of \$5 for each bale  
which is not so labeled. As re-  
gards the penalties attaching to  
those putting foreign matter into  
any bale of hay intended for sale,  
the law provides: "Any person  
who puts any foreign matter into  
any bale of hay intended for sale,  
which improperly increases its  
weight, or which prejudicially  
affects the quality of the bale,  
shall, on summary conviction, be  
liable to a fine not exceeding \$40  
for the first offence, and for each  
subsequent offence to a fine not  
exceeding \$100.

EIGHT YEARS AGO this month  
the world entered upon a stage of  
its history that has brought about  
vast changes which even to-day  
are not fully matured nor appre-  
ciated. It was the beginning of  
the Great War which was shortly  
to entangle nearly every nation in  
the meshes of the most terrible  
war in history. The world has  
not entirely got over that colossal  
struggle yet, but it is gradually  
doing so. Nineteen hundred and  
fourteen are figures writ in letters  
of fire on the pages of Canadian  
history, and so are the succeeding  
years when Canadians showed  
their worth and valor by glorious  
deeds on the greatest battle fields  
of France and Flanders. Have  
we forgotten those deeds, or are  
we forgetting what they were  
fought for? It is well if we have  
not allowed their glories to fade,  
nor their meaning to die. God of  
our fathers, known of old,  
Lord of our far-flung battle line,  
Beneath whose awful hand we hold  
Dominion over palm and pine—  
Lord God of Hosts, be with us,  
lest we forget, lest we forsake.
