WITH HIS OVERALLS ON

The deacon's a pillar—the country is livid.
With men such as he'll be missed when he's gone—
On Sunday he's dressed in a suit of the best,
But the Lord likes him most with his overalls on.
On Sunday he's different, I can't find a word,
T. express the big change that comes over John,
He talks through his nose, which is very absurd,
He doesn't do that with his overalls on.
When he speaks out in church I feel again,
His voice is a whine and his features are drawn,
He talks as if somewhere he suffers with pain,
He don't act like that with his overalls on.
On week days he's hearty and cheery and blythe,
He's happy and gay and up with the dawn,
A-singin' grace or swingin' a scythe,
Big John's at his best with his overalls on.
For once on a time he was reckless and bad,
The Lord in His mercy released him from pain;
Is that an excuse for to frown and to be sad
And stern—when he ain't got his overalls on?
On week days his bosom's over-blowin' with glee,
But dressed in his church clothes the smiles are all gone,
Though he's good all the time I've got an idee—
The Lord loves him best with his overalls on.
—The Khan, in the Telegram

Autumn Crops

Results of Experiments at the Ontario Agricultural College
During the past year, experiments have been conducted at the Agricultural College and throughout Ontario with Winter Wheat, Winter Rye, Winter Emmer, Winter Barley and Hairy Vetches.
More than three hundred varieties of winter wheat and many selections and crosses have been tested at the Agricultural College within the past thirty-two years. Fourteen varieties of winter wheat have been grown under test at the College and for twenty seven years with average results for the whole period as follows:—Yield of grain per acre 48.8 bushels, yield of straw per acre 26.1 tons, and per measured bushel 60.7 pounds. The percentage increased per acre in 1922 compared with the average for the whole period amounts to 13 in yield of grain, 18 in yield of straw, and 5 in weight of grain per measured bushel. It will, therefore, be seen that the winter wheat results at the College are considerably above the average this season. The winter crop throughout Ontario this year is in most districts a better than average crop.

The most prominent varieties of winter wheat in Ontario at the present time are the Dawson's Golden Chaff, the O. A. C. No. 104, the No. 6 and the Imperial Amber. The Dawson's Golden Chaff produces stiff straw of medium length, beardless heads with red chaff, and a heavy head. The O. A. C. No. 104 was originated at the College by crossing the Dawson's Golden Chaff and the Bulgarian. It is a white wheat with white chaff similar to the Bulgarian and has a beardless head similar to Dawson's Golden Chaff. It is a vigorous grower and has been less subject to winter-killing than either of its parents. The No. 6 resembles the Dawson's Golden Chaff but has a square head, the straw is very pliant, and the crop seems less subject to injury from smut. The Imperial Amber is a bearded wheat with red chaff and red grain. Experiments at the College have shown that the best results have been obtained from sowing large, plump, sound well-matured winter wheat seed of strong vitality.
Five varieties of winter wheat have been grown in co-operative tests by farmers throughout Ontario in each of the past six years. The average results in yield of bushels per acre for the six year period are as follows:—O. A. C. No. 104, 57.8; Improved Dawson's Golden Chaff, 56.1; Improved Imperial Amber, 55.2; Kharkov, 25.5; Yaroslav, 21.2. The O. A. C. No. 104 surpassed the Dawson's Golden Chaff and Imperial Amber in yield in field tests—both at the College and throughout Ontario.
The Mammoth White, Rosen and Pekus varieties of winter rye have given the best results of all the ryes tested at Guelph. Winter barley is not quite as hardy as the winter wheat, but when it survives the winter, it produces high yields.
As long as the supply lasts, material will be distributed free of charge in the order in which the applications are received from Ontario farmers wishing to experiment and report the results on any one of the following tests:—
1 Three varieties of Winter Wheat.
2 A variety of Winter Rye and Hairy Vetches for seed production.
3 Spring applications of five fertilizers with Winter Wheat.
4 Autumn and Spring applications of Nitrate of soda and common salt with Winter Wheat.
5 Winter Emmer and Winter Barley.
6 Hairy Vetches and Winter Rye as fodder crops.
7 Mixtures of Winter Rye and Hairy Vetches for seed production.
The size of each plot is to be one rod wide by two rods long. Fertilizers will be sent by express for Experiment No. 4 this autumn, and for Experiment No. 3 next spring. All seed will be sent by mail except that for number 4 which will accompany the fertilizers.

Improved Auto Marker for 1923

The contract for the 1923 motor license plates has been awarded, at 23 cents a pair. Plates for the current year cost 14 cents per pair. According to the Department officials at the Parliament Buildings, a large percentage of this year's plates, had to be replaced by reason of inferior materials and method of manufacture. In view of the unsatisfactory results from the plates now in use, it was felt that the item of cost alone should not be the controlling factor in the selection of plates. The plates of 1923 will have white numbers on a black background, of a dull finish, the enamel being of the most durable kind. Under the conditions of the contract the plate is to be made of heavy twenty-four gauge steel strengthened by a new design of double edging along the top and bottom. By this improvement the plate is strengthened so that the markers may be more securely fastened to the car and are thus less liable to be lost.

Halton County Rate

At the last meeting of the County Council By-law No. 494 was passed to levy a rate of 7 mill for county expenses, 8 mills for general expenditure and 1 mill for maintenance of good roads, as follows:
Trafalgar.....\$88,257 40
Esquimaux.....20,497 87
Nelson.....26,356 46
Naasagaways.....9,888 29
Acton.....4,858 71
Milton.....4,608 19
Oakville.....10,790 14
Burlington.....9,208 94
Georgetown.....6,048 29
\$141,509 25

Acton

Acton crossed, from the third to the seventh lines, has been given a liberal coating of gravel by the Provincial Department of Highways.
If anyone tells you that Chief Cooney is not proud of his new uniform, they're off. Jim knows uniforms and his is the real high-toned vogue.
Mr. Joseph A. Luby has been spending his holidays with his friend, Mr. N. Gregory of Lindsay, at his summer home at Fenelon Falls.
He has returned to his position in Toronto.
Mr. and Mrs. L. B. Shorey left on Saturday morning on a three-weeks' motoring and camping trip.
Acton Produce Merchants have received an order for a car of potatoes for shipment to the West Indies.
The first car of turnips for the season was loaded by M. P. Barry this week. They were shipped to New York. Free Press

Erin

Mr. W. Justice of Dauphin, Man., spent a few days recently with his brother, Major Justice.
Mr. and Mrs. John Hall and son Audrey and daughter Rita, of Tillsonburg, with Rev. Morley and Mrs. Hall of Capreol, motored from Tillsonburg and were guests of Mr. and Mrs. Chas. Henry, last week.
Miss Laura Miller of Georgetown is the guest of her cousin, Miss Ethel Price, this week.
In accordance with a ruling now followed by most Ontario newspapers, the Advocate will take its annual holiday next week and will suspend publication of one issue for the purpose.—Advocate.

Milton

Miss Kellett, deaconess, Upper Canada Tract Society, has collected \$140 for Inland Sailor's Mission in Milton during the past week.
Milton's new fire truck with chemical attachment, will be on exhibition at the Canadian National Exhibition until its close.
Miss Carroll got back to Milton on Tuesday. About seven months ago a bone in one of her thighs accidentally and her recovery in a Toronto hospital was tedious. She is still slightly lame, but hopes the lameness will pass off. Her return is welcomed by many friends.
Mr. and Mrs. P. D. Hartley, Milton Ont., announce the engagement of their youngest daughter, Lillian Estelle, to Mr. Allan McCready, only daughter of Mr. and Mrs. W. E. McCready, Milton, the marriage to take place in September.—Champion

Death Accidents

The coroner's jury in the inquest on the death of Thomas Butler, of Toronto, who was fatally injured in a collision near Burlington between a motorcycle and a car driven by Joseph Dino, has given a verdict of accidental death, exonerating Dino from all blame. It was proved that the side car of the motorcycle ran into the rear of the auto, that Dino did not see it coming and was driving carefully. Dino was appearing before Police Magistrate Watt today on a remand and is likely to be released.

Struck a Gold Mine
"Here's something queer," said the dentist. "You say this tooth has never been worked on before, but I find small flakes of gold on my instrument." "I think you have struck my back collar button," replied the victim.

Birds of Eastern Canada
A second edition of "Birds of Eastern Canada", a book that has proved very popular among lovers of birds, has been published. It contains 234 pages of printed matter and 60 coloured plates illustrating one hundred species of Canadian birds. It can be had in heavy paper covers at 60 cents or in cloth at \$1.00 per copy by applying to the Director, Geological Survey, Ottawa.

The Hebrew children survived in a furnace, but they never tried a telephone booth.

She—How is it that widows generally manage to marry again?
He—Because dead men fell no later.
