

Indian Winter Progression

An open fall with no cold weather until late in December is predicted by Henry Prince, a grandson of the great Indian Chief Peguis, who bases his opinion principally on the position and movement of the stars, and declared that the dipper is exceptionally slow in its turning movements this season.

Will Accept Nominations

The Gazette is creditably informed that Premier Durney has signified his willingness to accept the nomination again for Hamilton County for the Provincial Legislature, if it is tendered to him. We understand the matter is now in the hands of the U.F.O. executive and a convention will be called in the near future to make the choice.—Hurlington Gazette.

A Coming Champion

The Toronto Star of Sept. 18th published the following:—Walter Knorr, former all-round athletic champion of the world, stated in an interview with The Star correspondent that Haas, of Detroit, a Toronto boy, is the future spirit wonder in his opinion, while a 15-year-old "Glasgow" youth named Merritt, whom he discovered some time ago in one of the best "corners" in the province in running and jumping.

Heavy Shipments of Cattle

Since August 19th the movement of live stock from Western Canada to the Eastern markets has been unusually heavy. Shipments consist almost entirely of beef cattle. The character of this business is such that fast service by the railways is an essential, and in this respect the Canadian National Railways are making records between Winnipeg and Toronto yards. Trains of from forty to fifty cars of stock are being shipped, and it is made possible by the splendid tangents and the lack of curves by this route. A train of 73 cars of cattle was received early Saturday morning at Union Stock Yards, West Toronto, making the trip from Winnipeg in 76 hours, it having left Winnipeg on Sept. 18th. This, probably, is the longest train of live stock ever received at Toronto from the west.

What a pinch has the chap with a full coat and his collar well lined with hard cider and other desirables.

Special Notice SHOE REPAIRS

The only fair way to do any kind of a job is by piece work price, so in the future I will charge so much for the material used and a reasonable price for the time it takes to do the work, this will cause my prices to vary, but in shoe repairing charging a customer who wears a 5 1/2 shoe the same price as the one who wears a 10 or 11, is not really the proper thing to do, as the party with small feet is helping to pay for the one with the larger. I range my prices according to the size of the shoe. A healing and healing will range from 75c to \$2.00. Whole soles, new heels, repairing wells, sewing, toe caps, etc. will cost extra. I don't repair while you wait, as this is not a proper or paying system. I have the experience, tools, machinery and the largest trade for repairing in this section of the county. All repairs receive the very best and prompt attention. Shoes called for and delivered.

# Increased Demand Lower Prices

STUDEBAKER factories are today operating at full capacity in an endeavor to meet the widespread demand for Studebaker motor cars.

Despite the full production schedules which have been steadily maintained, the combined Studebaker factories, on August 1st, had more than 15,000 unfilled orders on hand.

Savings resulting from capacity manufacture were passed on to the public through Studebaker's reduction in prices.

effective August 7. It is a Studebaker policy of seventy years' standing to share manufacturing savings with the customer.

The quality of Studebaker cars has not been decreased one iota. At their new low prices they represent the greatest intrinsic values on the market. In justice to the purchasing power of your dollar, see the Studebaker line, embracing 13 models, before you buy any car.

Note these new exceptional prices.
