### WHEN I WOULD REST

At times when night has settled And abut away the noisy town, I take it in my bead to look

And ramble through an ancient A restful hour thus spending, But surely as I settle there In comfort in my easy chair.

There comes this order ringing clear. winh you'd go at once, my dear The furnace fire needs tending!"

If I should lie me down to doze, And snatch a little sweet repose To lose myself to pain and strife, The barter and the trade of life And all its hate offending: The moment that I close my eyes I then am called upon to rise

And she will whisper, sitting near "I wouldn't go to sleep, my dear, The furnace tire needs 'tending.' From sere October unto May The furnace runs the live-long day had he voluntary gone forward until Unseen, unhelped by mortal hand very recently. It does its work to best the band | The Old Castor Of Policy. And keeps the heat ascending :

Until I find my easy chair And settle down, and then I hear bidding terminologies were forced Her one insistent cry "My dear, The furnace fire needs 'tending.' There is no perfect peace, they say No one untroubled lives his day

Life's irritations catch us all,

The rich and poor, the great and From which there's no defending. Yet why I wonder should it be One restful hour's denied to me. Why must this always interfere When I have settled down?

The furnace fire needs 'tending!

### Everybody's Business

THE Ford Motor Company has made a gennine attempt to give the public automobile transportation at a price within the reach of all. It has carried out the ideals of the inventor of the Ford Car, Henry Ford, and has placed the Ford Motor Company in the position of performing a public service to the people of Canada. It has definitely made Ford products a national institution—being such, the Ford Motor Company believes it is justified in telling the public it serves, how the present low price of Ford

Care can be maintained in 1923 How the Present Low Price of Ford Cars Can Be Maintained in 1923 We are absolutely frank with the public when we say that the present low prices are not justified by present production but only by the production it is hoped will result from them.

The present low prices for Ford Cars are based on maximum production only. To-day's market on steel and other raw material that goes into the manufacture of Ford Cars will not warrant these prices except at peak production. Ford prices must go up unless they are justified by increased production.

Everybody's Business The Ford Car is everybody's Car-the Ford business is everybody's business. You and your neighbor, and his neighbor are all vitally affected by the price of Ford Cars.

You Can Set the Price! Fill in the, memorandum below and mail to the Ford dealer, whose name appears below. This merely signifies your intention to buy a Ford Car and oldigates you in no manner

The Ford Company must know how many cars are wanted in 1923 in order to maintain If you are at all concerned about buying a Ford this year make it your business to ! the Ford Company know about it. the prices. You can help if you act at once. FORD MOTOR COMPANY OF CANADA, LIMITED, FORD, ONTARIO
