THE FARM LOAN SYSTEM

Government Plan for Developing Farm Property.

Loans Limited to Specific Purposes—Reasonable Rate of Interest for Long Term Loans—Help to Straighten Estate Tangles—About Repayments.

(Contributed by Ontario Department of Agriculture.) On October 25th last the Agricultural Development Board passed the first loan under the long term farm loan legislation of the previous session...

Three Features. There are three features of the plan which are of considerable interest to farmers. These are: 1. Money is available. 2. Rate of interest. 3. Amortization of repayments.

It is perhaps asking a good deal to expect a skeptical public to believe that the Government or semi-Government organization operates without red tape. Certainly it is the aim of this Board to do as much as possible to simplify the operation of the plan as simple as possible from the standpoint of the borrower.

THE LONGER—FOR APPLE

usy-checked, Thick Skinned and Well Flavored. Fruit Eaters Will Welcome It. May the Growing To-day in Ontario. Ontario's New Flower—Rising by the Factory.

Wherever on a farm in the apple growing districts of Ontario there are any red seedling apples. Seedling apples that may have characters that would make them valuable commercial sorts, if such could be introduced to the public. True, there are thousands of worthless seedlings, but you'll never row an orchard area now growing a tree or fruit that produces a superior fruit.

Thick Skinned Most Desirable. This skinned Ontario variety will not stand the shipping and long exposure in the retail store to the same degree as the Western thick skinned apples. Western apples are so punky and become unfit for use, but this one will stand as long as you want. Ontario's new red seedling apple, something new, red, of good quality, and a good thick protective coat.
