Notes and Comments

THE CITY OF COCHRANE, with ver 500 cases of typhoid fever, is an illustration of what can hap on unless every precaution is taken to have a pure water supply. Public sympathy will be with the stricken city, and it is to be hoped the lesson to be learned from its experience will not be disregarded elsewhere. Georgetown's water supply has been free from any con tamination thus far, and we believe those in authority will see to it that the new supply is free from anything detrimental to the public health. A pure water supply is a town's greatest asset.

HAVE YOU EVER NOTICED that if you hate the world it bater you s in return, while if you turn a smil-10 ing face and take the buffetings of your friends and acquaintances with a light heart the world invariably spiles kindly upon you in return. Like many other things, this is a case of the law of retaliation, wherein "whatsoever a man 57 soweth that shall be reap." Smiling upon your enemies does not 5 12 always convert them into friends, 82 but it certainly does belp to make life more agreeable for all concerneled, not excluding yourself. The tendency of human nature is to strike back again. If you present your neighbor with a gift he gives o something in return, but if you slander him he will be a great deal quicker in returning your slander. Praise a man all you like and he may reciprocate, but more likely 69 be will pretend not to notice what you have done. Criticise him and see how quickly be will notice it 9 and will try to exact reparation. That is something that is particularly noticeable in the newspaper world, but as a matter of fact it 75 applies to all walks of life. A man likes lots of taffy and resents criti-

SCHOOL TRUSTEES and the ratepayers who take an interest in the proper support of the Public Schools, are thinking seriously these days of the methods of the 27 Department of Education in distributing the grants to schools Many feel that there is too great a spread between the ratio of distribution between the rural and urban schools. The Government appropriation for educational pur-

poses is nearly ten millions of dollars. To be accurate, last year it was \$9,865,279. Of this amount rural schools obtained \$1,587,758 Easter examinations for S.S. No. 9 and urban schools \$190,000. The urban population, which is 54% of the total, is receiving only 10% marked with an " were absent for of the Public School grant, while the rural population, which is 42% of the population is getting 84% of Jr. IV-Blanche Wright 61, the grant. Cities and towns are assessed to between 65 and 90% of their actual selling price, yet the rural schools are receiving eight 64, Jim Ross 57, Joe Ross 49, Ar. Limes as much as the urban schools. An increased burden has been added to urban schools by Beatrice Lane 70, Gladys Milliere the Adolescent School Attendance 69, Harvey Norton 68, Olive Given Act. Provision for more accom-55, Arthur Knowles 49, Kenneth modation is entailing a heavy in-Taxes are higher in every way in Elda towns and cities compared with Tarzwell 71, Jean McDonald 60 x the country districts and many think there is no tenable reason Jr. II-Catharine Hamilton #6, why all municipalities should not Jack Smethurst 78, Jack Lawson be placed on the same basis and poses in proportion to the assess-
