Alfalfa Growers Organize

H. A. Dobon, Chaltenham, President, of the Young Association

"Clean alfalfa seed is marketed seed, and the kind that every grower wants," is the axiom W. J. Lennox, of Toronto, laid down for the gathering of 65 alfalfa growers of Peel, which met last Friday afternoon, for the purpose of organizing an association, and dealing with the methods of getting better and still better seed. It is not enough for a farmer to weed his crop, he must know every weed peat, and be beforeband in their eradication. Interested discussions followed this address and that of A. W. Mason, who gave an address on strains and varieties. Mr. Mason inspected Peel alfalfa fields last summer and found that most of these growers were cultivating variegated type of alfalfa. In experiments carried on at the O.A.C. for a period of ten years, it was found that the Grimm, the finest of the variegated toye, produced 8.6 per acre on average against 1.1 tons from the ordinary types. The association is for better seed.

The following are the officers President, H. A. Dolson, Cheltenham : Vice-President, A Bert Hewson, Malton : Secretary-Treas. J. A. Carroll; Directors, L. J. C. Mrs A. Walson, Mrs. E. Winfield Henry Walker, Everett Shaw, W. K. Westlake, Geo. Cameron and James Hilliard.
