

SHINE JUST WHERE YOU ARE

Don't waste your time in looking for bright, impossible things. Don't sit sullenly yearning for the swiftness of angel wings. Don't spurn to be a fishbowl. Because you are not a star. But brush some bit of darkness by shining just where you are. There is need of the tiniest candle. As well as the torch of sun. The humblest deed is ennobled. When it is worthily done. You may never be called to brighten the darkened regions afar. So fill, for the day, your mission by shining just where you are. Just where you are, my brother. Just where God bids you to stand. Thought down in the deepest shade. Instead of the sunlit land. You may carry a brightness with you. That no gloom or darkness can mar. For the light of a Christlike spirit will be shining wherever you are.

The European Corn Borer Quarantined Area Extended

On February 26th, 1928, an Order in Council was passed which quarantined the following territory in Ontario on account of the European Corn Borer: The counties of Essex, Kent, Lambton, Elgin, Middlesex, Norfolk, Oxford, Haldimand, Welland, Lincoln, Wentworth, Brant, Huron, Waterloo, Perth, Euron (with the exception of Ashfield, Wawanosh East, Wawanosh West and Howick townships), Peel (with the exception of Caledon township); as well as, Caledon township in Bruce county; Guelph in Wellington county; Etobicoke, Scarborough and York in York county; Pickering, Whitby East and Whitby West in Ontario county; Darlington and Clarke in Durham county; and Brighton township in Northumberland county. On account of the severity of the infestation in Elgin and Middlesex counties they have been placed under double quarantine. The products affected by the regulations are corn (fodder, corn stalks, including broom corn whether used for packing or other purposes, green sweet corn, roasting ears, corn on the cob or corn cobs). The movement of these products from the quarantined area to points outside is prohibited.

The cities of Toronto and Hamilton are now included in the quarantined territory, consequently the markets in these cities will be open to all growers of sweet corn with the exception of those situated in the counties of Elgin and Middlesex. It is pointed out, however, that quarantined products must not be shipped from Toronto or Hamilton to any point outside the quarantined territory.

United States Quarantine No. 41, prohibiting the importation, without inspection, of various cut flowers and vegetables from Ontario on account of the European Corn Borer, is still in force. The Dominion Department of Agriculture will cooperate with growers again this season in making all reasonable inspections and furnishing the necessary certificates for proposed shipments. For further information dealing with the European Corn Borer Quarantine or the inspection of products for export, persons interested should communicate with the Division of Foreign Pests Suppression, Department of Agriculture, Ottawa.

The New Highway

Work on the new Provincial Highway in this vicinity has been resumed. The contract has been let for the section from Georgetown to the assembly line and up to Thompson's corner for grading and graveling. Contracts have also been let for two small bridges and one large bridge at Norval. The Department hopes to have the road through this section and as far west as Kitchener, and beyond completed this year.

One of the proposed sections in the new Motor Act now before the Legislature is as follows: Where the rate of speed exceeds 40 miles per hour, the driver shall incur for the first offence a penalty of not less than \$25 and not more than \$100 and shall also be liable to imprisonment for any term not exceeding six months, and in addition, his license or permit may be suspended for any period not exceeding one year.

Despite reports from some parts of the West, and reflected to an extent in some quarters of Ontario, that the farmers are not making ends meet, there are evidences that intelligent application and work bring results. On Saturday E. J. Bennett shipped two cars of export cattle which averaged him 80 per pound and a car of ordinary stock. He got 27 head from W. E. Thompson that averaged 1300 pounds and brought around \$190 each, the cattle doubling their money in 54 months. A few months ago Mr. Thompson delivered 25 head that netted him \$1850. This, with proceeds from the sale of 20 tons of hay and from his pigs would indicate that Mr. Thompson is getting a safe return.—Star and Vidette, Grand Valley.

—Yes Mary, Before I married you I was just plain Hooley; then I married and was called Mr. Hooley; after that I became Councilor Hooley; then Alderman Hooley; and that Sunday when I went into the church the congregation all stood up and sang "Hooley, Hooley, Hooley."

The Greatest Service—The Least Attention

There's no piece of farm equipment that gives so much service over so long a period with so little attention as a good windmill. That's why I recommend the Toronto Self-Oiling Windmill so highly. Lots of Toronto Windmills have given from eighteen to twenty years' service with practically no attention outside an occasional oiling and are still operating satisfactorily every day.

Who is he?

Who is the man in the private office? He is—the man your salesmen are afraid to stop on the street.

—the man who is always "out" or "busy" when they call; —the man who never replies to your letters making special offers; —the man who ignores your telegrams.

Somebody has called him, on Long Distance. He does not know yet who it is, but he is as polite as if he anticipated favors!

Long Distance gets in where salesmen fear to tread. Plann'd Long Distance campaigns get past every barrier.
