Terra Cotta

The Terra Cotta U.F.O., the first to come into existence in the County of Peel, has worked out a system of book exchanges that adds interest to the life of the community. The members take to the meetings all the books that they can spare from the homes, an exchange is effected, and the secretary acts as librarian. This week the U.F.W.O. undertook a new form of exchange. The members brought all the flower seeds, bulbs and roots that they could spare from their home gardens. Gardens of the district will show considerable variety this summer, with no outlay on the part o members.

The Studebaker Light-Six Sedan is built for years of hard service - service over country roads, up country

trails, city streets or anywhere you wish to drive? It is comfortable, economical of fuel, sturdy and long-lived. Freedom from repairs is proved by Studebaker's sales of repair parts, which in 1922 averaged only \$13 per car in operation.

Vibration, which is so destructive, particularly to clused cars, is practically eliminated in the Light-Six Sedan by the machining of the crankshaft and connecting rods on all surfaces -a feature of construction not to be found in any other car in Canada selling for less than \$3500.

Beautiful in design, mechanically right, luxurious and adequately equipped -that briefly-describes the Studebaker Light-Six Sedan.
