## GEORGETOWN CREAMERY

### Cream Wanted

By the Georgetown Creamery  
We will be open for the accommodation of farmers on Monday, Wednesday and Saturday evenings.

Any person wanting ice must purchase tickets for same at Creamery.

**Georgetown Creamery Co.**  
M. Saxe, Manager

## A Pest!

### The European Corn Borer

Great damage to corn crops in certain sections of Ontario has been caused in recent years by the European Corn Borer. To check this pest, follow closely recommendations of the Department.

### Its Life History

The moth appears about the middle of June and lasts until about the last week in July.

### Egg Laying

In this period the female lays its eggs on the undersides of the corn leaves, preferably on the most advanced corn.

### The Borer

The damage is done by the borer stage. The "worm" develops from the egg, eating into the stalks and ears. It winters in the stubble or stalks.

### The Pupa

The worm changes to the pupa, which in turn develops into the moth about the second week of June or later.

## THE WINE OF LIFE

"When I've left off carin' the way I do, For the things that's old and the things that's new, For the things that's happenin' every minute, An' all the sights as the world's got in it; When I've got no manner of use no more, For a song 'an a yarn 'with my pals ashore; When a ship's no more than a ship to me, An' there's nowhere left as I want to see; When all the fun's all that an' the jokes all stale, An' there ain't no taste in the 'raps an' the ale— You can't catch me up as soon as you like In a corner o' wore-out sail," said Mike.

"With 'olystones at my heels and an' dollar me overboard—I'll be dead!"

## Nomination Meeting

Hon. E. C. Drury, George Hillmer and LeRoy Dale in the Field

At the nomination proceedings at Milton on Thursday, June 14th, over one thousand electors from all parts of the county were present, more than half being women.

Each of the candidates was permitted by Chairman John Deering to speak 45 minutes, the Premier leading off. At the conclusion Mr. Drury was given 15 minutes in which to reply. Besides the candidates, Mrs. (Dr.) J. A. McIverson of Acton was granted permission to use some of Mr. Hillmer's time. In addition to his defense of the Government record, the Premier made a few vigorous references to the Globe, denying, in the first place, the accuracy of a letter appearing in the Globe, signed "A. E.," which charged him with being a poor friend of public ownership. He also challenged the Globe, "which, in the absence of very much Liberal leadership, perhaps I may take to be the mouthpiece of the party," to put his finger upon the items of expenditure wherein the Government had been extravagant. He went over each of the major items of increase, emphasizing his demand for "detailed criticism," not criticism of generalities.

Mrs. Dr. McIverson of Acton spoke on behalf of Mr. Hillmer, urging the electors to vote for the Conservative candidate and against placing Hon. G. Howard Ferguson at the head of the next Government.

Mr. Hillmer twitted the Premier upon his residence outside the riding of his choice, challenging him to point out wherein he had done anything for Halton since he came into office, in sharp contrast, he said, to Hon. Mr. Biggs' record in Wentworth. He criticized Dundas highways, expenditure totals, the \$288,000 cost on sixteen mile bridge; the blanketing of the school tax; the Government's claim to credit for mothers' pensions, and other matters. He then attacked the Premier's policy on the O.T.A.—that of change only by consent of the people, but "proper and sane enforcement."

Mr. Dale, the Liberal, said he stood right behind the platform of the Liberal party on all points, and in regard to the O.T.A. he declared that, no matter what the Premier or any candidate said, the law was unique in that it had been put on the statute books by the people and could only be changed by their sanction. He did stand, however, he said, for equal enforcement against rich and poor alike.

He instilled the growing expenditures under the Drury Government; re-stated its platform, denouncing the increase to nearly \$100,000,000 of accumulated debt, and pointed out that in three years the Drury Government, pledged to a policy of retrenchment, had increased that figure to \$248,000,000; denounced the Government for its "patronage" proclivities, and said that if he were J. W. Curry, K.C., late member for S.E. Toronto, he would feel, in accepting an \$8,000-a-year Registrarship, that he was just receiving so much money for services rendered. Mr. Dale suspected also that the signing of the Redistribution Bill, along with the electoral reform measures opposed by the Tories, was the result of a well-calculated scheme planned by a minister politician, Mr. Drury.

## County Council

Milton, June 6th, 1923. The council met at 10.30 a.m. in accordance with call of the Warden in the chair.

Members all present, the Warden in the chair.

The minutes of the last meeting were read and confirmed.

Communications were read as follows: from Lieut. Col. G. O. Brown, 20th Halton Rifles, Ontario Institute for Blind, Secretary Halton Women's Institute and R. R. Fleming, Department of Agriculture, asking for grants, Ontario Municipal Association re membership, Wm. Carroll, re Sixteen Mile Creek bridge, Department of Highways re by-law and extension of county road at Burlington, Toronto

## Notes and Comments.

A MAN WHO allows himself to be worried into selling a good victory or other bond for the sake of purchasing an auto ought to be incarcerated in an asylum for mentally deficient persons, for he is scarcely fit to be at large. Such a bond invariably represents the savings of, if not a life time, at least part of one, and for any man to part with it for the purpose of buying a car, which is bound to depreciate in value rapidly every year, is little short of criminal, both as regards his own future and that of his family. We know how easy it is to want to do the best one can by the family, and it is sometimes hard to withstand the importunities of the younger people who are animated by a desire for flying around the country and "keeping up with the Joneses." Nevertheless, the man who sells his heritage in order to gratify such whims is doing himself grave injustice and it is to be seriously questioned whether he is altogether sane in allowing himself to be misled.

A STORY RECORDED in the papers the other day of a man—one of the social leaders of New York—dying and leaving an estate of more than \$2,000,000, while in addition to the actual cash value of his belongings there were in the neighborhood of \$1,500,000 worth of worthless bonds, is one of the tragedies that are too often met with in this world to-day. Fraudulent schemes have become so profitable and capable of being developed and extended amongst even the better classes of the community that they are practically limitless. The result is that in a great many instances men pass away leaving estates that on the face of them are worth considerable amounts, but when dissected amount to comparatively nothing at all, and it is needless to say that many are the tragedies in connection with the helpless dependents as a result. It is difficult to understand how this sort of thing is going to be safe-guarded, but undoubtedly the law should be made very much more stringent with reference to the manipulation of all fraudulent companies than it has been in the past. A great many of the "skin games" which are being hung before the public to-day could be eliminated by wise legislation, and while we are afraid that there will still be men capable of being easily fooled by a smooth tongue, samples such as the New Yorker with \$1,500,000 worth of worthless bonds would be comparatively rare if proper legislation was in force.

## Notes and Comments.

The Ontario Department of Highways has made a commendable move in determining to stop tree butchery along public roads. Not only is it the intention to beautify the highways, but to preserve the existing beauty in that trees will not be mutilated or sacrificed wherever it is possible to save them. No conveyance, telephone, power, or telegraph will be allowed to cut the trees without permission and only to remove branches which are entirely essential to transmission, will be given, and in any case only the minimum allowed, and such must be done under the supervision of the Department of Public Highways. In this connection various companies have entered heartily into cooperation with the Department in that at present they are trying to clear their lines with as little mutilation of trees as possible.

Capt. Joe Thompson, M.P.P., will be one of the speakers at the Conservative meeting to-night.
