The Studebaker Light Six Sedan 22223

—But You Can't Ride on the Paint!

Imitation diamonds can be made to look real and sparkle so brightly that it is difficult to tell them from the genuine.
 But try to sell one and you will find out its real worth in a flash.
 Same with automobiles. Weakness of construction in a closed car can be hidden, for a time, with paint and varnish and fancy fittings. But all is not quality that glitters.
 You can't ride on the paint. And when you place such a car in the second hand market, you suffer a heavy depreciation, because it lacked real intrinsic value at the outset. Use will never improve a mediocre product.
 Motor car owners tell us that the trade-in value of any Studebaker car at the end of three or four or five years of useful life is greater than on any other car built today—the percentage of depreciation is the lowest.
 No wonder the Studebaker Light Six Sedan is the fastest selling quality Sedan in the world!
 The name Studebaker stands for quality, durability, comfort and integrity.

MISS HAZEL HOFFMAN
 died at her parents' home in Esquimaux, last Sunday from the effects of an accident which occurred about a month ago. She was lighting a fire in a stove with paper only, no coal oil. One of her sleeves caught fire and this got into her skirt. Her clothing was in a blaze when one of her sisters went to her assistance and put out the flames with water after having her own hands and arms burnt. The burns extended over most of Miss Hoffman's body and she suffered greatly until near the end. It was hoped the might recover, but she succumbed to the poisoning of her system. She was in her 28th year. She is survived by her parents, two brothers, Donald and Allan Wesley, and two sisters, Pearl and Edith Victoria. The funeral took place on Tuesday, in St. Andrew's Roman Catholic Church, in Evergreen Cemetery, Milton. The attendance was very large.

THE HOMESTEAD

Our old brown homestead reared its walls
 From the waste dust aloof,
 Where the apple boughs could
 almost cast
 Their fruit upon its roof:
 And the cherry tree so near it
 grew
 That when awake I've lain
 In the lonesome night, I've heard
 the limbs
 As they croaked against the
 pane.
 And those orchard trees, oh, those
 orchard trees!
 I've seen my little brothers
 rooked
 In their tops by the summer
 breeze!
 We had a well, a deep old well,
 Where the spring was never dry
 And the cool drops down the mossy
 stones
 Were falling constantly,
 And there never was water half
 so sweet
 As the draught that filled my
 cup,
 Drawn up to the curb by the rude
 old sweep
 And that father's hand set up,
 And that deep old well, oh, that
 deep old well!
 I remember now that splashing
 sound
 Of the bucket as it fell.
 Our homestead had an ample
 hearth,
 Where at night we loved to
 meet;
 There my mother's voice was al-
 ways kind,
 And her smile was always sweet
 And there I've sat at my father's
 knee,
 And watched his thoughtful
 brow
 With my childish hand in his
 raven hair—
 That hair is silver now!
 But that broad beam's light, oh,
 that broad beam's light!
 And my father's look and my
 mother's smile,
 They are in my heart to-night.

Notes and Comments.

JUDGING by the number and extent of the various fires in the northern region of Ontario, it is high time more care was exercised both by the settlers and the campers. The latter come in for severe criticism, but the possibilities are that the settlers are as much at fault as the careless landloper.

WE ARE DRIFTING away from our former purposeful civilization, and developing a frothy, silly, superficial age. Multitudes of young girls are growing up in our midst to-day who have been mentally led on froth—nothing but froth—silly, superficial amusements, and vain, meaningless talk, one would think that there is something serious in life, nothing really worth while except to giggle and laugh and have "a good time." They lay great emphasis on dress and frivolous amusements in reading; there is a superficial tendency in American life. Light reading everywhere predominates over the more serious. The majority of people read nothing but exciting novels, which stimulate the imagination, arouse unfortunate desires and leave nothing behind but, froth. On the other hand it is encouraging to know that there is also a serious progressive movement in our midst working steadily, earnestly for the realization of high ideals. There are multitudes of Canadians—sincere, high-minded men and women, who are sick and tired of this "frothy" business. Entirely free from selfish, personal motives, they are battling loyally and making great sacrifices for the establishment of peace and good will in the world. They are trying to repair the frightful damage caused by the great war and to bring all nations together in working for the common good. If those who are giving all their time to the "frothy business" would only give a portion of it to helping on the great progressive movement, what a momentum it would receive! And how much more satisfaction and happiness these people would find in their lives! For, despite all their pretense, they are not happy. No one ever yet found happiness in making pursuit of pleasure the aim and need of life. Froth is a very un satisfying kind of food. Those in the satisfaction in it for the soul of a man or woman.—Success.

Decoration Day at Milton
 Sunday, June 24th was observed by the Milton Oddfellows' Lodge as decoration day and church anniversary. At 2:30 a large parade of Oddfellows, accompanied by the Daughters of Babelah, and headed by Milton Citizens' Band, marched to Evergreen Cemetery, where twenty graves of departed brothers and sisters were decorated with magnificent bouquets of flowers. Among the visiting brethren in the parade were Brothers Geo. Hillmer of Oakville, Conservative candidate, who decorated one of the graves, and LeRoy Dale of Georgetown, Liberal candidate for Galtville. The Oddfellows and Daughters of Babelah, headed by the band, paraded to Knox Church in the evening when Rev. Wm. MacKay preached an appropriate sermon.
