SPECIAL AUGUST TERMS ON TORONTO SILOS
Startling Big Offer Makes it Easy for Any Farmer to Own a Silo
I know that many farmers need silos, but can't buy them right away. But they need them now. To make it easy for every farmer in my community to own a silo and make more money, I am offering special terms for the month of August only. I can do this because a "Toronto" Silo pays for itself. Before you have to pay me, the silo will have paid you. See me to-day for particulars. Don't put it off. This offer is for August only.
TURN YOUR CORN INTO MORE BEEF AND MILK
Experiment and practice have proven over and over again that the biggest returns from a corn field come from feeding the corn as good ensilage to beef and dairy cattle.
Thousands of farmers have proved that good ensilage is made in a "Toronto" Silo. "Toronto" Silos are made of wood—the best non-conductor of heat and cold. Selected spruce slaves, double-tongued and grooved and impregnated with creosote. Silage juices do not affect the walls of a wooden silo. You gain 15% greater capacity through our Special High Roof construction.
Get my booklet on "Toronto" Silos and High Roof Construction. Shows how the latter allows better and longer silage storage.
