Net To Balance Motor Fees
The question of raising automobile bills has not been considered by the provincial government, according to a statement by Hon. George Henry, minister of highways last Friday. In a dispatch from Stratford the minister was reported to have indicated that there was going to be an increase in auto fees. It appears that a suggestion to secure additional revenue in this fashion was made by one of the speakers at the meeting and Hon. Mr. Henry sort of jocularly remarked that possibly that might happen some day.
