Mental Mpgione

October 31st, under the suspices | of the Local Council of Women, a very interesting and instructive becture was given by Mrs. Smythe of Toronto. Mrs. Smythe was for two years president of the Toronto Local Council of Women and has made a special study of conditions concerning mental defections in Ontario as well as in other coun tries. The speaker stated that "It | is estimated that in Ontario slope C there are probably 60,000 such cases of varying degrees of hientality or rather lack of mentality. Fifty per cent of criminals are ad judged mentally defective. There are those who are totally unfit; there are those who with care and training can be happily and profit ably employed, and there are those that proper care and development can save for themselves and their country. The responsibility sure y rests with the normal citizens to not only protect themselves and future of the state but to give the weaker ones every chance. Mrs. Smy the also gave an interesting eccount of the origin of the Nation al Council of Women. There are ndw councils in thirty six different countries. Mesdames' Hoss and Annandale Amoured the audience with a pinno duet "Norwegian Dance", Miss McLeod sang "Lassie O'Mine" and "May Time".

Miss Dayfoot occupied the chair.

A silver collection was taken.

On the afternoon of Wednesday,
