Obituary

· JOHN R. GRANT

On Tuesday, last, Nov. 6th, Lie lowel was called upon to mourn the loss of one of its oldest and most esteemed residents in the person of Mr. John R. Grant, who passed away at the family resi dence, at the age of 70 years, 5 months and 6 days. About a year Edward-Colman, park ago the late Mr. Grant met with an accident at Windsor and although he seemed to recover from its effect his health had not been good since. On Wednesday of last week he suffered from a slight stroke and from then until the great call came he gradually grew Wm. Armstrong directing traffic weaker and weaker. The late Mr. at Radial station 21,90 weaker and weaker. The late Mr. Grant was the son of the late Wm. Grant and Sarah Ross and was born in Glenwilliams. Halton County. We was well known throughout the business world and by everyone he was held in the W. T. Evans, Insurance highest esteem, but nowhere more so than in his home town. He was a gentleman of the old school and no more congenial or sociable J. S. Ruddy, new w.w. and no more congenial or sociable J. S. What the Chief Constable of the Toronto Police Department says of the River of the Toronto Police Department says of the River of the Toronto Police Department says of the Toronto Police Department says of the River of the Toronto Police Department says of the Toronto Police Department says of the River of the Toronto Police Department says of the Toronto Police Department says of the River of the Toronto Police Department says of the River of the Toronto Police Department says of the River of the River of the Toronto Police Department says of the River of the R about McLaughlin-Buick Four Wheel Brake.

Police Department

Toronto, Canada, Oct. 11th, 1923 The Manager McLaughlin Buick Motor Car Co'y.,

128 Church Street, Toronto.

My Dear Sir:-Recently I had the privilege of driving one of the new McLaughtin-Buick 1924 Sedans with the four wheel brake equipment. I drove the car one full day on Country and City streets, the roads and pavements being dry on that day. I encountered many bad hills, including the one at reenwood, Ont., which was taken with case without changing of year, the car containing gix passen-

I found that the four-wheel braking system stopped the car quickly when descending Later I tested the brake system thoroughly on various wet slippery pavements, some portions of the streets being littered with refuse as a result of horses being driven over them, which is more dangerous than a clean wet pavement, and found that the four wheel brake equipment, as perfected on the McLaugh. lin Buick makes for greater safety when driving at all speeds, especially in crowded traffic.

As the brake lining is distributed over four wheels instend of two, the wear should be reduced to a minimum. In my opinion the four wheel brake arrangement is one of the greatest advances in motor car development in recent years, and if generally adopted would; I hope, be a factor in reducing the number of traffic accidents.

I congratulate the McLaughlin Buick Company on being a pioneer in this connection.

Yours sincerely, J. DICKSON,

FISHER & KING, Georgetown, representa tives of the McLaughlin-Buick Motor Car Co.
