There is a dearth of equipment for practical work in science. Liberal grants should be made for additions to the scientific apparatus. A supply of Perry pic tures is needed for picture study in the Art classes. The new lavatories are completed and are credit to the school. Some of the floors are in very poor condition. The laying of hardwood floors should be completed throughout the building. The plaster blackboards should be replaced with slate. Ratio of pupils to teachers satisfactory. ### Ridgetown, Out. 1923. T. Watson **Notes and Comments**

"SAFETY FOR ALL" appears to be a most desirable slogan in this day and generation when too many chances are taken by the average individual. Increased safety is a demand that should be made by modern industry, as accidents reported to our provincial Compensation Board have shown a very large increase in 1923 over the same period in 1922; in fact, each month in 1928 so far has averaged nearly 1,000 more accidents than in 1922. This must give considerable food for thought to manage ment and men, for both employer and employee stand to lose time cidents occurring in industry to-
