## The Meaning of Chevrolet's "Economical Transportation"

TT is more economical to travel by Chev-I rolet than by any other means. That is what it means to say that Chevrolet is the most economical form of transportation.

This implies, first of all, that Chevrolet costs the least per car-mile - that it is less expensive to operate than any other make of car. But, more than that, it means that Chevrolet is

more economical than any other kind of transportation. An Investigation among Chevrolet owners of all classes, shows that it is not only more convenient -but also more economical-to travel by Chevrolet than by railway-train or trolley car. The

information received gives an average of 30 miles

per gallon of gasoline and over 1,300 miles per gallon of oil. Chevrolet is easy to own. The G.M.A.C. plan of deferred payments will enable you to finance the purchase. Investigate the new Superior Chevrolet
