D. LIVINGSTONE

He sings; and his song is heard. Puro sa a joyous prayer, ecause he sings of the simple

The fields and the open air. The orchard bough and the mock-And the blossoms everywhere.

He sings of a wealth we hold In common ownership-The wildwood nook and the laugh of the brook, And the dewdrop's drip and drip The love of the lily's heart of gold

And the kiss of the rose's lip. The universal heart eans listening to his lay, That glints and gleams with the glimmering dreams. Of children at their play-A lay as rich with unconscious ar As the first song bird's of May.

Steadfastly, bravely glad. Above all earthly stress. He lifts his line to heights divine And singing, ever says-This is a better world than bad-God's love is limitless.

Motor Car Revenue

Place no faith in to-morrow, for

The clock may then be still.

Owners of motor vehicles in th Dominion are footing the bill for highway construction and maintenance to an increasingly large extent; also, the increasing costs of operation of this utility are affecting the expected expansion of one of Canada's most promising industries, according to A. W. Campbell, Dominion Highway Commissioner, Ottawa. During 1924 the total revenue from motor vehicles in Canada to the provincial governments will exceed \$18,-

Based on the average rate of in crease in the total number of motor vehicles registered in all the provinces since 1920, Mr. Campbell pointed out, there are now being operated in Canada 626,286 cars of all types. In 1920 the total registration was 415,187, in 1921 the total was 468,848, in 1922 it was 514,657, in 1928 it was 585,079— a total increase since 1920 of over 40 per cent. This inorease, said Mr. Campbell, is very much less than the total increase of revenues secured by the different provinces from motor vehicle owners by way of restriction fees, operator fees, fines and miscellan-

In 1920 the total income of al provinces from motor vehicles amounted to \$6,016,028; in 1921 it was \$7,669,495, an increase of over 27 per cent.; in 1922 it was \$9 279,248, an increase since 1920 of over 54 per cent, and in 1928 it was \$11,402,421, or an increase of pearly 90 per cent. Based upon the average rate of increase in This amount will probably be other points. under the actual revenue derived which collect a tax on gasoline used for motor vehicles purposes, year collecting a similar tax."
