### Junkin-Adams

A pretty autumn wedding took place in Georgetown last Saturday morning at the home of Mrs. J. W. Adams, when Myrtle, daughter of Mrs. and the late John W. Adams, became the bride of Charles Junkin, Postmaster of Kenora, and son of Mrs. E. Junkin and the late E. Junkin of Bobseygone. The wedding ceremony was conducted by Rev. Mr. Caldwell. The bride was given away by her uncle, Mr. J. W. Kennedy. She looked very pretty in a cocoa crepe dress, and carried a lovely flower bouquet of sweetheart roses and lilies of the valley. The Wedding March was played by Miss Jean Adams, sister of the bride. The home was beautifully decorated with a profusion of gladioli blooms. After the ceremony the happy couple left on a trip to Toronto, Niagara Falls and Buffalo. They wore a smart beige fur trimmed cloak over her costume and chic little velvet and flower-trimmed hat to match.

## TORONTO Running Water!

When and Where You Want It

On any farm of average size at least one hour a day—364 ten hour working days a year—are spent in the irksome, wearying task of pumping water. 364 days which one of my Toronto Windmills will give you for profitable work, rest or recreation—besides supplying running water wherever you want it.

The one bothersome task, that of oiling the windmill in all kinds of weather, is overcome in the Toronto Self-Oiler, which requires fresh oil only "once a year." Friction and wear are practically abolished. Toronto windmills, too, can be made absolutely self-regulating in operation.

The "Toronto" Tower will stand for a Lifetime because it is the heaviest, strongest and best-braced one built for any windmill. Let me explain why I believe this is one of the biggest conveniences you can have.
