Body Found in River

The body of an unknown man about 85 years of age and 5 ft. 1 in. tall was found floating by one of the piers at the iron bridg on Sunday. The discovery was made by some boys who reported the matter to Chief Jackson. Deceased was dressed in working clothes and had been in the water for some time. There was nothing on the body by which it could be identifled. The remains were photo graphed, then buried in Green. wood Cemetery, a service being pinducted by Rev. Mr. Mayes. Coroper McColl and Crown Attorney Dick catted an inquest and after meeting they adjourned until Monday 18th. The jury on the case are A. G. Green, foreman; Dr. Heath, Joseph Ruddy, R. Erwin, W A. Balley, Joseph Watson, F. | E. Fisher, S. B. Gross.

Prohibition Meeting

The meeting was opened with which the gathering joined singing "O God our help in ages past." Mr. C. J. Russell, president of the local organization; n the best interests of the coun Oct. 28rd, introduced the speaker

of the afternoon. Mr. Simpson made an earnest appeal to the audiénce to support the O.T.A. The slogan of campaign was "Over the Again," with the objective of world free from intoxicating bevorages." Since 16 years of age he has been fighting the liquor traffic in many countries and provinces as it is the greatest enemy of the working men and a great moral issue is now before the people of this province. We are asked to vote for the selling of liquor under government control in sealed packages or the continuance of the present Ontario Temperance Act. farms. The fact that some of the other provinces had voted for government control was no argument in favor of Outario changing There were 700 municipalities dry in On tario under Local Option before force after being carried by over f 800,000 of a majority of the people of the province. The opposition are asked to come to the platform and justify their, position as regards the sale of liquor. They have no other motive but greed if and appetite. Greed for profits and the appetite of men for temp eral exhiliaration rather than the welfare of the home and little W obildren. Alcohol is the excretion of living organism and the only way to get rid of the traffic is to g kill it. We are flying in an enlightened age and supposed to know what is injurious to society. 4 We teach our children the evil effects of alcohol on the system, and then the government want us to go into selling this evil to work | destruction on the people. Liquor | is a detriment to every department | of the government. Alcohol lossone man's resistance to disease, it attacks the cells of his brain, he 2 loses control of himself and can not sustain a strong physical body. Children do not have to start in the world with a handicap under like prohibition. When they tell you fit tourists go to Quebec for booze they lie. In 1928 statistics tall us a 888,000 American cars came into 3 Untario and 670,000 into Quebec. [4] Bank clearings have increased in the any other commodity. From

Toronto under prohibition and dement Control. The dollars of the working man to day are going for clothing and food instead of booze which returns you less value than inancial standpoint the government would have to sell 50 million dollars worth of booze to get 4 million for the Province. You get nothing in return for what you spend in booze and your chances to pay off our Provincial debt are great deal better under probibition. We cannot afford to have safety as we must have a sober people under modern transportation. The labor world realizes the evils of liquor and stand for prohibition. The experience of government control in other provinces creditable display and included to purchase a new uniform for is that it does not control. There are lots of chances to improve on

the enforcement of the O.T.A. and if we got the right men in power it will be enforced. It is not for us to surrender because of the investments bootlegger but to get after him. The world is looking to Ontario as "Moved by Arnold seconded by sp: example and Mr. Simpson urged all to give the O.T.A. such overwhelming support on October like 28rd that those opposed to the Act

later must prevail.
