Facts About Optometry

By Dr. C. C. Floyd, Optometrist Georgetown. Phone 276

NO. 2 OF THE SERIES

The word Optometrist has in recent years largely displaced the better known word, Optician. Strictly speaking, the words have different meanings.

An Optometrist is a person who has applied with the requirements of the optometric law and has been issued a certificate permitting him to practice his profession. The work of the Optician is largely mechanical. He prepares lenses, adjusts frames, etc.

A person studying Optometry usually qualifies in both the professional and mechanical branches, so the average practitioner is both an Optometrist and an Optician. To be continued next Wednesday

Returned Sailors and Soldiers Declare "The Saloon Must Not Come Back"

A Message from a Returned Naval and Army Officer to the Men Who Fought in the Great War

By Capt. A. H. Munday

As sailors and soldiers who carried out praise-worthy service in many engagements and on many battle-fronts for your King and Country, and incidentally your freedom and rights as citizens of Canada, you are the best judges of the evils of the open bar-room.

While fighting and on leave in many countries you had an unexcelled opportunity to get first hand information on the poverty, suffering and even tragedy that follows in the wake of the bar-room on the street corner. You saw for yourself, with your own eyes, the barefooted and ragged children who walked along the gutters looking for crusts and refuse so that they might continue to exist; and every hundred yards a drunken man was sprawled across the curb.

Upon your return to Canada you had the opportunity of living in a country free from bar-rooms. You undoubtedly failed to find one drunken man on the streets, and the children were shoes, they were dressed comfortably, they were well-fed, and happy and smiling. They lived in happy homes where a spirit of harmony and prosperity commanded the respect of the community.

Men! the powers behind the bar-room are preparing to fight to bring back the saloon.

Are we to return to poverty, suffering and tragedy? Are we to let the rising generation walk barefooted and ragged in the gutters of our cities in order that they get sufficient refuse to exist?

Men! once again the call goes out for comrades in the cause of humanity you are appealed to!

If 50,000 returned soldiers and sailors stand shoulder to shoulder to fight this enemy that undermines and kills our children, the greatest victory of the age will be won for all time. Men—your help is needed.

And remember, men, that word "subterfuge". It was a valuable science in the war, and the powers behind the open bar-room are using it in their fight. Government control and local option is part of this subterfuge.

During the next six weeks the liquor powers are going to spend large sums, and are going to leave no stone unturned in order to bring back the saloons on the street corners.

There must be no compromise! To yield to the subterfuge of the liquor powers would be to hold up a white flag. It would be a decisive victory to the liquor trusts. To give in to Government Control or Local Option would be to consent unknowingly to the open bar-room.

Men! Comrades! Companions! In the cause of the welfare of our children, women, and the progress of the world—give your support to stamp out this evil. Men with red blood in your veins—your help is needed.
