### AN OLD MAN WONDERS

Did we have more fon than they Who wear the sails of vonth today Were our eyes really brighter then, Or are we took-h, and, old men Who merely hancy in our chymes That life has lost those good old limes?

I wonder were the girls we knew In grochum gowns of rock and

And Insided hour and ankle shuts. So very shy, or were they thats Were they much different trom; the mards

Of now, who have no r.booned brauds

We sang and danced the latest We lost our heads for maden's

We often stale a kess or two

Which like as not these youngsters I fancy sthough I do not know, .

They still hold hands as long ago We tell our little boastwof all .. We and when we were young and We takes joy was sweeter then :

But are we fooish, gray, old men Still clinging to the long ago, And is our prattle really so? Will not these youngsters turn

and say. 'And bear some newer ballad sung

We'd sweeter songs when

were young." . I fancy they like us at last Will cherish memories of the past Edgar A. Guest

Campbell McPherson

A quiet wedding was solemnized at the Ballinafad parson age, on Thursday, October 16th, when Sarah Jane McPhorson, daughter of Mr. and Mrs. W. T. McPherson, Caledon, became the bride of Mr. John A. Campbell, son of Mr. and Mrs. David Campbell, Orangeville. The ceremony was conducted by the Rev. W. Waddell. The bride was attended by her sister, Miss Lizzio McPherson, while the groomewas supported by his nephew, Mr. John Graham, Inglewood. After the cere mony the happy couple left on a honeymoon trip, the bride travel

## Aim

It is the aim of this school to prepare young people for business; to give them a training in commercial affairs that will be of direct benefit to them in whatever line of work they may oare to enter.

Four Courses of Study -Stenographic

-Bookkeeping -Secretarial -Teachers' Training Individual instruction.

Brampion Business Institute Anderson Block-Brampton, Ont.

START ON MONDAY -AT-

Guelph Business College GUELPH, ONT.

### To See What Other Half Is Doing.

Above... The Canadian Pacific S.S. Empress of France chosen to carry the Canadian fing round the world in 1925. Right-The bedroom of one of the suites aboard the vessel

One reads almost daily that so many automobiles have been shipped to foreign countries, that Canadian agricultural implements and other manufactured articles are finding foreign markets, and now one reads that there is an increasing demand in China and Japan for Canadian wheat and that housands of bushels of grain are being shipped to Oriental Ports. Of vital importance is this news to the Canadian, Because the growth of Canadian exports means that new industries are being created, that more employment is guaranteed, that more. money is placed in general circulation, and that there are more opportunities for the workman, manufacturer and commercial man, and a larger home market for the farmer, But it means more than all this. The increasing

demand for Canadian, American and European goods, which is apparent, means that the other half of the world — the world itself—is changing. The automobile is gradually replacing the rickshaw and the one horse cabe in the gateway ports of the world, and is working its way inland, not so slowly as it is surely. Fields that once knew only the primitive agricultural implements are being tilled with up-to-date machinery, and on the busy streets where people thronged in picturesque and native garb, the occidental costume does not strike a strange note. Customs are changing even in respect to foodstuffs.

Outside the little restaurants one sees "English Speak Here", and
knows that inside it will be harder to procure a native dish than a
European one. Everywhere there is change. The Turks abolish their
caliphate and their harems. The Greeks proclaim a republic, education
for women appears in India. The Chinese are erecting modernfactories.

Yet the world of romance still exists. Foreign countries still hold an allurement, and always will, but as the occidental civilization spreads, the Oriental atmosphere which, after all, is what the tourist goes to find, disappears before it, and the man of today has opportunity which those who come later will never see. Opportunity to see and come in contact with old customs, costumes, crafts and civilizations which are entering or about to enter a transient stage. Opportunity to experience the picturesque life of the other half of the world and to absorb at will the colorful atmosphere of strange lands; for the traveller may still feast his eyes upon the barbaric splendors of Pekin and experience the thrill of shopping in the tumultuous market place at Cairo. The auto has not yet replaced the

the tumultuous market place at Cairo. The auto has not yet replaced the sledge which taxis through the steep and cobbled streets of Madeira.

January 14th next will see the palatial Canadian Pacific 8.8. Empress of France leave New York on a globe encircling tour which will extend over 130 days. It will be a cruise which will embrace twenty-seven "Gateway Ports", and give the passengers opportunity of coming into contact with more than half a hundred different races. Madeira, Monaco, Naples, Haifa, Padang, Shanghai, Taku, Hilo, Balbos and Havana are but a few of the interesting ports of call, and inland excursions will be made to Jerusalem, Cairo, Agra for the Taj Mahal, Pekin, Nikko and other places. Last year another Canadian vessel, the Empress of Canada, made a similar trip — a very successful one—and the first to be operated under Canadian Pacific auspices throughout. A Mediterranean cruise is also planned this year by the Company, the Empress of Scotland being scheduled to leave New York, February 9th on a 62 day voyage, and, in addition, the Montroyal, formerly the Empress of Britain, will make two cruises between New York and the West Indies, one on January 20th and the other on February 21st. So it is between New York and the West Indies, one on January 20th and the other on February 21st. So it is that there is demand not only for Canadian foods, but for Canadian vessels, these last having wor for selves an envisble reputation on both the Atlantic and Pacific waters as seaworthy and comfortable risk.

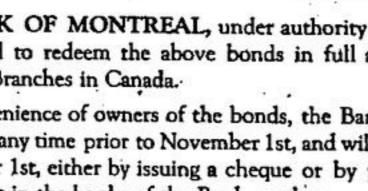

## DOMINION OF CANADA VICTORY LOAN BONDS

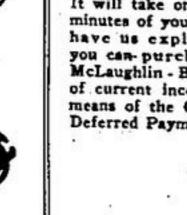

MATURING 1st NOVEMBER, 1924

THE BANK OF MONTREAL, under authority of the Minister of Finance, is prepared to redeem the above bonds in full at maturity, without charge, at any of its Branches in Canada.

Undesirable Pavors Given by Some Plants In Autumn

lagweell an Offender-Rank Clover. Turnip Tops and Rape Also Make Taints-Oil on Perches Stop Hen

Lice-To Remove Paint. (Contributed by Ontario Department of

Agriculture, Toronto.) One of the worst weeds for producing bad flavors it milk during the autumn season is racweclich says Prof. H. H. Dean of is pre-Agricultural College. peculiar pungent odol po uit. which is very objectionable for both cheese and buttermaking. For con-20c | densing, powdering, and for city milk and cream trade such milk would be rejected and returned to the farmer. A Bud Case of Ragweed Taint.

A case is known where a cheesemaker was obliged to leave the facteed good vinegar. We've just tory because the cheese was rejected by the cheese buyers on account of gotten in a supply of extra choice pickling vinegar both the ender and | bad flavor. On investigation it was found that ragweed grew on many patrons' farms nearly as high as the sure the best results every time. fences. When pastures are short, as Best of pickling spices are also an they frequently are in September and mportant part of our stock nowa- October, the cattle eat the weed. This taints the milk and causes no end of trouble for both cheese and buttermakers. The rentedy, of course, is to rid the farms of this noxious weed, or else prevent the cown from ey can buy phone 229, and our pasturing in fields where the ragweed wagon will call. Once used you

will have no other. We have not Rank Clover Will Give Taint.

Sometimes very rank clover will give a taint to the milk. The remedy to turn the cows into a Icesh them, WE DO. We put the best of clover field for only a short time materials and skill into their pro- each day until they grow accustomed to the clover and the persons buying or using the milk become adjusted to the change in flavor. Bakery and Groceries Turnip Tops Give Offensive Flavor.

Among crops grown for feeding purposes, one of the worst flavored is turnip tons. As soon as the turnip crop is harvested some farmers turn their cattle into the field to clean up the tops, small turnips, etc. This practice is sure to result in badflavored milk and cream. Most creamery men warn their patrons against this, as it has been found impossible to prevent 'turnip-tainted' butter where much cream comes from farms ..... where "cows break into the turnly field unknown to the owner." Rape Nearly as Bad as Turnips.

Itape is nearly as bad as turnip tops. In beef-raising sections, where rape is largely grown for fattening cattle and sheeps, the cows, if allowed into the rape field, are almost sure to give tainted milk. If the farmer is using the milk and cream at home and likes the turnip or rape flavor, all right; but to sell this raw material for manufacturing purposes will spoil the cheese and butter. We Apple Barrels cannot be too careful with the autumn foods for dairy cows. Prices are usually good, and we must produce milk of good davor .- Dept. of Extension, O. A. College, Guelph.

Oll on Perches Stops Hen Lice. When I started to keep poultry built a new hen-house, and the first year I had no trouble at all with mites, but the second year gave me lots of work. But one day I went out on a pleasure drive which took me close to a friend's home whom ! ki : to be a good poultry woman. I asked to see her flock, to which she gladly led the way.

The building was just a ramshackle old affair to which several leans had been added as her, flock grew in size. She went right into the house, but I hesitated, for when I looked in I saw all sorts of boxes and barrels half full of straw with hens on them, the only thing provided for them to lay in. But she invited me in, and reluctantly I complied. She led off in conversation, I listening. expecting any minute to be set upon by mites. After a few minutes it dawned upon me there were no mites in there, so I asked her how she managed to keep such a place free from mites. She turned to the perches, pointed at them and said. "See those black perches. That le

I went home and olled the perches in my new hen-house and have had ago. Each year, after the incubating season is over, I paint the perphes heavily with the cheapest lubricating off procurable, and now I don't think have a mite on the place. Mites all leave the hen before daylight. The oil kills them, and enough of it gets on the feathers to kill the young as they batch on the hen's body. Don't put the oll on till the hatching is over or you'll regret it.

To Remove Paint.

To remove old paint from wood work or automobile body, wash with a strong, hot solution of concentrated lye. Dissolve one can of lye in everygallon of water used and apply while hot. A wooden tub or bucket is an sultable container for the solution. An old paint brush or a heavy cloth OFORGETOWN PHONE may be used to apply the paint remover. The hands should be protected by rearing rubber sloves after ed by wearing rubber gloves. After letting solution soak into the paint, which requires about ten minutes, it may be removed with a stiff wire brush or steel wool. A brush or wool becomes clogged with paint, rinse in a pall of clean-water. In stubborn cases, or where there are several coats of paint, two or three applications may be necessary

> "At the head of all the actenger and arts, at the head of civilization and progress, stands-not militarism, the science that kills, not comnerce, the art that accumulates wealth-but agriculture, the mother of all industry, and the maintainer of human life."- Gardeld.
