**WOODLAND WARFARE**  
Crack—snap—bang! Do you hear  
the shot  
From the guns go hurtling by?  
Do you hear the patter of furry  
feet  
Through the forest, with terror  
fleet?  
Do you hear the pitiful cry  
Of the creatures wild, in their  
mad despair?  
For they scent the smell of death  
in the air,  
And they have no wish to die.  
The hunt is on! Hurrah! Hurrah!  
This is the greatest chase!  
For 'tis fun, you know, to pursue  
and kill,  
To prove to all we've the sports-  
man's skill  
To hit the target be  
The living, harmless creature that  
roves  
The flowering meadows and frag-  
rant groves,  
Innocent and care free!  
Tis pleasure, you know, to hunt  
down the weak,  
To pursue the frightened thing,  
For it gives such a thrill to see its  
blood  
Flow in a red, remorseless flood!  
Fun to shoot the bird on the wing!  
Oh, this horrible warfare!—one  
means the more  
To foster the merciless spirit of  
war,  
With its cruel and maddening sting!  
—Lionella C. Poole.

**Temperance Meeting**

The Executive of Halton Temperance Association met at Milton  
last week to review the temperance  
situation. It was found that  
with a little special effort the finan-  
cial needs could be cared for.  
Then the following resolutions  
were unanimously adopted.

1. That each municipal branch  
should be kept alive and in active  
working order to assist in thorough  
local enforcement of the O.T.A.
2. That the government was to  
be congratulated in the promise to  
strengthen weak places in the O.  
T.A. and to vigorously enforce it.  
In doing this the government  
could be assured of the heartiest  
support of all really temperance  
people.
3. That bootleggers and moon-  
shiners should not only be fined  
but committed to jail with hard  
labor for the first offence, increas-  
ed jail sentence for subsequent  
offences.
4. That approach should be  
made to the Federal government for  
the prohibition of the manufac-  
ture of intoxicants as beverages  
within all provinces in which the  
sale was prohibited. Also that ex-  
portation of liquors shall be pro-  
hibited when the ship or boat is  
obviously incapable of carrying  
the liquors to the declared destina-  
tion.
5. That the Federal government  
should be requested to prohib-  
it the manufacture and sale of  
strong native wines in all provin-  
ces in which other intoxicating  
liquors are prohibited as beverages.

**Milton**

Mr. and Mrs. Matthew Job wish  
to announce the engagement of  
their daughter, Mary Margaret,  
to Mr. Wm. Britton, the marriage to  
take place the latter part of  
November.

On Monday, Albert Hagen, em-  
ployed by A. A. Buck, Omagh, had  
a dynamite detector explode in  
his hands. The thumb and two  
fingers of his left hand were so  
badly mangled that their amputa-  
tion was necessary. His right  
hand and face were also injured.  
A few days ago W. A. Neilson  
was thrashing at the farm of S.  
Bridgen, of Esqueving, and had  
brought a span of horses with him.  
They were put in the barn with  
their harness on them. One  
crowded the other out of a door at  
the end of the barn and was drag-  
ged out too, falling twelve feet.  
One was killed and the other badly  
hurt.

John Cartwright lost heavily  
last Thursday, when his barn in  
Nelson, about four miles south of  
Milton, took fire and was consum-  
ed with its contents, which included  
this year's crop. Fortunately his  
live stock was in the fields, but his  
loss was about \$4,000, only  
partially covered by insurance.  
The cause of the fire is unknown.  
—Champion.

**Notes and Comments**

THAT FAMOUS BEAUTY—the girl  
in the red bathing suit, who has  
found her way to scores of auto-  
mobile windshields, is apparently  
about to take her final plunge in  
Windsor. Chief of Police Thomp-  
son, of that city, has frowned on  
the practice of "stickers," and im-  
munates that he will ask the police  
commission to stop the practice.  
The stickers are not only a dis-  
traction to the driver, but their  
morality is also questionable. He  
further maintains that owing to  
the heavy traffic in the downtown  
sections, the "stickers" are a men-  
ace. And so it looks as though  
the crimson bathing beauty is to  
breathe stroke from the picture.

**FOOLISH SPENDING** is the father  
of poverty. Do not be ashamed of  
hard work. Work for the best  
salaries and wages you can get,  
but work for half price rather than  
be idle. Be your own master, and  
do not let society or fashion swal-  
low up your individuality—hat,  
coat and boots. Do not eat up or  
wear out of the right kind. Let  
yourself body to spend your  
money for profit's sake. Be stingy  
to your own appetite, but merci-  
ful to other's necessities. Help  
others, and ask no help for your-  
self. See that you are proud. Let  
your pride be of the right kind.  
Do not pretend to wear a coat you  
cannot buy; too proud to be in  
company that you cannot keep up  
with in expenses; too proud to lie  
or steal, or cheat; too proud to be  
stingy; in short, to be a man of in-  
tegrity and individuality.

**ELECTRICITY HAS BECOME** one  
of the common servants of man-  
kind in the factory and the home,  
and while all realize its death-  
dealing properties if one comes  
into contact with it, its common  
usage with safety causes a ten-  
dency for persons to not always  
exercise all the care which is advi-  
sable. One danger in connection  
with electricity which is not uni-  
versally known, and one which is  
often overlooked, is that under  
certain conditions where there is  
dampness or some good conductor  
exists. Water is one of the best  
conductors and the greatest pre-  
cautions should therefore be taken  
in the handling of electric cords or  
in even turning the button on a  
lamp sockets in places where there  
is water or even dampness or  
where one may be in contact with  
anything which is a good conduc-  
tor, for should there be any defect  
in the wiring the consequences of  
what under ordinary circumstances  
would be a harmless shock may be  
very serious or even fatal. Too  
many chances are taken with elec-  
tricity because under ordinary cir-  
cumstances a break in a cord or a  
defective button does no harm.  
But given such things under extri-  
ordinary circumstances where con-  
tact with water or some other  
good conductor changes conditions  
the results may be serious indeed.  
Too great a precaution cannot  
therefore be taken in regard to  
the handling of electricity in bath-  
rooms, kitchens, cellars, etc.

**HOW DIFFERENT THE WORLD**  
would be if only one would devote  
time to help somebody that need-  
ed it every day, a neighbor, or a  
visitor, or a friend in trouble? It  
does not help one another enough in  
this life. Self is predominant.  
Every one and then we take on  
new inspiration by seeing some-  
one suffering, noble soul doing  
good, "living one's religion," as we  
heard said about a friend a few  
days ago. She found so many  
little things to do for people. If  
she went to sit an hour with a  
friend, she found work to do, look  
her thimble, needle, and if that  
friend had a basket full of little  
waists made, ready for the button  
holes, she insisted upon her letting  
her work them, while she sat and  
talked, and what a help to that  
delicate-mother, with three or four  
little ones to sew for. Little  
things, you say. Yes, but that is  
what we need to do, and do them  
now, not sit dreaming. If you  
have a better, quicker way of do-  
ing a thing, one that will help a  
friend, make it your business to  
tell that friend of it. We often  
know a good thing but are indif-  
ferent to helping others with it.  
We recall a friend who was like a ray  
of sunshine in a darkened room.  
She was never officious, always  
gentle, courteous, using tact in  
dispensing her good works. The  
sick loved to have her come as did  
the well ones. Her neighbors  
within five squares of her knew of  
her little acts of kindness: she  
found out the weary, and at heart,  
the discouraged ones. There are  
three hundred and sixty five days  
in a year, and such long days to  
some; if we can make them sim-  
ple, help some one every day. In a  
year we have done good work. It  
may be just little things, but they  
will count.

**Well Known Minister Passes**

Following an illness of two  
months' duration, Rev. H. H. Mac-  
Pherson, M.A., Clerk of the Guelph  
Presbytery for many years, and  
one of the best known ministers in  
Western Ontario, passed away at  
his residence in Guelph last Satur-  
day. The late Mr. MacPherson  
was well known in church circles,  
having been actively connected  
with the work of the Presbyterian  
Church in various capacities. His  
first charge was at Nassagaweya,  
where he remained a short time,  
after which he accepted a call to  
the John's Church, Halifax, where  
he was pastor for eighteen years.  
His last charge was at Guelph,  
from which he resigned six years  
ago to live retired in Guelph.

—Employer (to applicant for a  
position, who has handed up testi-  
monials from two ministers). "We  
don't work on Sundays. Haven't  
you a reference from someone who  
sees you on week days?"

**Police Seek Cattle Rustlers**

How thieves and cattle rustlers  
have been at work in Wellington  
County and Constable Melville of  
the Provincial Police has been in-  
vestigating the theft of two bay  
registered mares, one Holstein cow  
and two calves from the fields of  
Dennis O'Sullivan, West Gara-  
frax. Yesterday the missing ani-  
mals were discovered on a farm  
near Fergus by the constable, but  
as yet no arrests have been made  
in connection with the theft. The  
animals were stolen from the fields  
of O'Sullivan on the night of Nov.  
12th.
