The Solution To Your Fuel Worries

There are dollars lying about your farm in waste wood which a Toronto Saw will readily turn into coal-saving fuel. It's one of the best money-makers I know of and I can recommend it highly as a profitable solution of your fuel worries. All-steel construction—strongly braced—built to last. Will operate best with a TORONTO Engine—built to run efficiently on gasoline or kerosene!

The Toronto Saw is only one of the many money-making propositions in the Toronto Farm Equipment line. Let's talk over the others when you're in town, or write to me for literature.
