### THE VALENTINE

I've just been buying a valentine.  
The daintiest, prettiest thing,  
All painted flowers and ribbons  
And birds of fluttering wings  
And I'm sending it off to Barbara Jane

With a dozen roses or so  
(Water roses being a rarity  
In a little village I know).  
And what does she mean to me  
A grin, confirmed old bachelor  
Of forty or fifty three?

Well, now, I'll make a confession.  
It's good for the soul they say.  
The last time I saw Barbara Jane  
Is forty years away!

We were but children and chums  
In a queer little country school  
(I see by your smiling you think  
I mean your smiling you think  
me)

A sentimental old fool!  
Barbara Jane was an odd little  
thing  
With wide gray wondering eyes,  
And a tiny freckle-spattered nose  
That made her look like a mouse  
But her two long, "Titian" pig-tails  
Were every lad's chief joy—  
If it were you I gained for the  
pains

We took to tease and annoy.  
Well, to go on with my story,  
One sunny Valentine's Day  
I thought that I'd torment Barbara Jane

In a very original way.  
So I placed two brilliant carrots  
In a box all daintily fine  
And left them for her labelled  
"To my lily Valentine"

Then I watched her find them at  
recess,  
And I thought she would cry, but  
instead,  
With her eyes and cheeks aflame  
"With eggs!"

"I'll show that boy!" she said,  
I hurried away, but when school  
was called,  
It makes me ashamed to confess,  
The dear little spunky creature  
Had the carrots pinned to her  
dress!

I was only a boy, but it touched  
me so  
That I made a solemn vow  
That I'd make it up to Barbara Jane.

So every year, upon Valentine's  
Day,  
I renew my youth again  
By sending—(although she's a  
grandmother)  
Red roses to Barbara Jane.  
By Molly Bevins.

### Public School Inspector's Report

Following is the Inspector's report  
to the Georgetown Public  
School Board for the term just  
ended—  
The Chairman and Members P. S.  
Board, Georgetown, Ont.

Ladies and Gentlemen—I have  
pleasure in presenting to you my  
report on the condition of your  
school for the current term. I  
have already made a partial report  
and have to add with respect to  
the remaining rooms that the work  
of the school is progressing in the  
normally effective way that has  
characterized it for years. The  
personnel of the staff, for several  
years unchanged, still continues to  
be a guarantee of efficiency. The  
enrollment has remained station-  
ary this term, standing at 360. I  
have discussed the organization  
with Mr. Green, I am still of the  
opinion that the enrollment in the  
junior department should not be  
allowed to exceed forty. The en-  
rollment in the senior room is also  
beyond what it reasonably should  
be, standing at 41. The return of  
the staff to a nine-teacher basis  
would make a better organization  
possible.

Under the provisions of the new  
Course of Study supplementary  
reading for both class and seat  
work is required for Forms I and II.  
I have conferred with the  
Principal in this connection and  
he will have suggestions to make  
as to suitable texts. Nothing  
could be more important than the  
provision of this material.

A matter that urgently needs  
attention is the ventilation of Mr.  
Green's room. Conditions have  
appeared very offensive this year  
on every occasion that I have  
visited the school, due no doubt in  
part to the large number of pupils  
in this room. The windows in the  
room cannot be lowered from the  
top and I suggest that suitable  
shields be made to permit the  
raising of the lower sashes of the  
windows without danger of drafts.  
These may be of very simple and  
cheap construction. It is a  
very important matter and you  
should consult Mr. Green at once  
who will explain my suggestion  
to him. Present conditions are  
positively injurious to all in that  
room. Similar devices might well  
be used in some of the other  
rooms.

A revised Course of Study for  
Public Schools was issued and  
placed in use early this term.  
"Considerable criticism more or less  
to the point had been made of the  
1915 Course of Study, based upon  
the feeling that it was too heavy  
and too loaded with detail for  
pupils of Public School age. In  
the present Course, which is issued  
in tentative form, certain reduc-  
tions have been made in the re-  
quirements in subjects, and cer-  
tain combinations made in con-  
nected subjects such as Composition  
and Spelling, Hygiene and Physical  
Culture, and Nature Study  
and Agriculture. In Art and Con-

### Notes and Comments

INCLUDING PURCHASE PRICE OF  
cars, upkeep and depreciation as  
well as the expense of maintaining  
motor highways. Hon. W. P. Nick-  
ols says the people of Ontario spent  
more money on automobiles last  
year than the total value of the  
crop of the Province. That is  
something to think about.

"TAKE YOUR HOLIDAY" in Canada  
instead of Switzerland and the  
 Riviera," is the slogan of Sir Har-  
ratt Potter, president of the British  
engineers' association, on his re-  
turn home after a trip in this coun-  
try. If acted on, Canada will  
metaphorically hang out the  
streamer, "Welcome, come again."

THE CITY INDUSTRIAL worker  
has one chance in eight of living  
to be seventy years old. The  
farmer has one chance in three.  
So reports a health committee  
that has made a study of the sub-  
ject. There is in a nutshell, you  
have a graphic picture of what  
civilization is doing to us. Health  
is close to the soil. The time is  
not far off when cities will in large  
part break up, factories moving to  
the open country and taking work-  
ers with them. Either that or  
man heads for extinction.

THE DAY WILL COME—when the smaller  
communities can provide for the  
needs of citizens as well, or better,  
than the big city. It has great  
open spaces while the city has not.

THE SCHOOLS AND CHURCHES are  
more accessible, just as athletic  
clubs and are without the distractions  
common to more populous dis-  
tricts. Greatest of them all, the  
small town provides an opportu-  
nity for friendship, for knowing and  
for meeting and greeting the other  
folks, that always will remain an  
unchallenged asset over that of  
the big city. It is the eternal  
struggle of quality over quantity.

THE CITY OF BROCKVILLE has  
just witnessed the death of six out  
of a family of seven, the cause be-  
ing illuminating gas, the mystery  
being how it penetrated the rooms  
of the house. There is thought to  
have been a leak in the gas main  
caused by frost, penetration being  
made into the house in some man-  
ner under the ground. It was a  
very shocking tragedy. It is easy  
enough to point the moral after  
the event, but it should be brought  
emphatically to the attention of  
all the people that there is wisdom  
in keeping a window partly open  
even in the winter. A current of  
fresh air might have averted so  
sweeping a disaster. In this par-  
ticular case the air in the house  
was so vitiated that even the gold  
fish were killed. Coal gas from a  
defective furnace is equally danger-  
ous, but a window open a few  
inches will frequently neutralize  
the deadly fumes. And remember  
this: Irrespective of the danger  
from coal gas or illuminating gas  
an open window insures pure air  
and therefore better health.

MARY HAMILTON LYONS  
On Saturday afternoon, Jan. 31,  
an old resident of Equestrae pass-  
ed away to her rest in the home  
of Mrs. Mary Hamilton Lyons,  
after a very painful illness. De-  
ceased was well known throughout  
the district where she had lived  
all her life and was at the advan-  
ced age of 77 years and 11 months  
when she died. A strong, vigor-  
ous personality she made many  
friends and maintained her  
clearness of intellect and deep in-  
terest in everyday affairs to the  
last. Deceased was a lifelong  
member of Norval Presbyterian  
Church, in which she took a keen  
interest. The funeral took place  
on Sunday afternoon at 3 p.m. at  
Norval Cemetery, the service be-  
ing conducted by the Rev. W.  
Patterson.

Among those who followed the  
cortege to its last resting place  
were—George Hamilton, brother;  
Mrs. Mandon, Mrs. Suley, Mrs.  
Harber, Mrs. Geo. Davis, nieces,  
and John D. Harber, nephew.

### Milton

At a well attended meeting of  
unionists in Knox Church school-  
room on Tuesday evening a strong  
committee was appointed. Defini-  
tive action was deferred until a  
later date. It is, however, the in-  
tention of the unionists to remain  
loyal to the Presbyterian Church  
and go with her into the United  
Church of Canada.

About 5 p.m. last Saturday fire  
broke out in the office at the C. N.  
R. station. It was caused by de-  
fective insulation or a short cir-  
cuit on the electric wires. It  
blazed up around the telegraphing  
instruments. There was delay in  
cutting the wires, until the proper  
tools and rubber gloves were  
brought, but the fire was kept  
under control until then, when it  
was soon extinguished. Damage  
was done to the amount of about  
\$100.—Champion.

### Good For the Money

After morning service when the  
family drew near the church and its  
procedure came in for criticism.  
Father criticized the blunders of  
the organist. The eldest daughter  
thought the choir's singing was  
atrocious. But the subject had to  
be dropped when the small boy of  
the family with the school-bag  
love for fair play, chipped in with  
the remark: "Dad, I think it was  
a jolly good show for a nickle."

### Halton County Orangemen

Ten lodges were represented at  
the annual meeting of the Halton  
County L.O.O.F., held in Milton last  
Wednesday with the largest at-  
tendance in the history of the  
county. Reports were read, every  
lodge reporting an increase in  
membership. It was unanimously  
decided to celebrate the "Glorious  
Twelfth" in Kitchener next July.

The following officers were elected  
for 1925: County Master: A. Pat-  
terson, Milton; D.M.: R. McCart-  
ney, Georgetown; Secretary: W.  
Brooker, Bronte; Treasurer: B.  
Bradley, Milton. After the elec-  
tion of officers short addresses  
were delivered by County Master  
A. Patterson, Dr. R. K. Anderson,  
M.P., of Milton, and George Hill-  
mer, M.P.P., Oakville, and other  
prominent Orangemen of Halton  
County.

### Peel's New Hospital Opened

His Honor Lieutenant-Governor  
Henry Coekshitt turned the key  
in the entrance door of the Peel  
Memorial Hospital last week and  
formally opened the institution to  
the public. Escorted by Col. R.  
V. Conover, of the Peel-Dufferin  
Regiment, who is vice-president of  
the Hospital Board, His Honor in-  
spected the building, all the wards  
being formally thrown open to the  
public. A guard of honor, 20 in  
number, were chosen from the G.  
W. V. A., with Captain Roy Lent,  
in command, Roy Dennis sounding  
the general salute.

### February Red and Gun

Benefit of interesting reading is  
the February issue of Red and  
Gun in Canada, which every sports-  
man is sure to enjoy. The Snow  
Barrier by Raymond Thompson is  
an exciting narrative of adventure  
in the frozen north country. Other  
interesting stories and articles, in-  
cluding E. R. Kerr's "The Migrat-  
ory Birds Treaty and Cause of De-  
crease in Numbers of Wild Fowl,"  
will also attract the reader's at-  
tention. The regular contributions  
of stories, E. V. Williams, J. W.  
Winson, Bonnycastle Dale and  
Martin Hunter, have all lived up  
to the reputations they have won  
for themselves in their different  
lines of sport. The regular depart-  
mental editors have their depart-  
ments up to their usual standard  
of excellence. Published monthly  
by W. J. Taylor, Limited, Wood-  
stock, Ont.
