Mr. W. Worden, Mr. D. Worden and Miss D. Worden of Acton were visitors of Mr. and Mrs. S. Worden during the week.

Mr. and Mrs. Alfred Watson returned home last week from Washington, D.C. where they visited Mr. Robert Ruddy who has recently been stricken with paralysis.

Here and There

That Hollanders who have located in Alberta are making good and are satisfied is the statement of Baron W. Van Heeckeren, of Rotterdam, after a recent tour of investigation.

The forming of a mining bureau as a branch of its activities is announced by the Winnipeg Board of Trade. The bureau is to collect data on the mining situation in the province and will do everything possible to foster greater mineral production in Manitoba.

Tourist traffic in Canada this year is likely to constitute a new record, in the opinion of the Commissioner of Parks. No estimate has been compiled as yet but the figures for 1923, which were carefully estimated at \$136,000,000, indicate the value of this traffic to the Dominion.

Up to the end of October, 1924, more than 1,000 circulating libraries were in operation in Saskatchewan, as compared with about 800 at the same time in 1923. The average number of families reading each book is 17. More than half a million volumes were circulated by these libraries during the year.

A huge wooden, tar-paper lined shell erected over the space provided for the structure and heated by thousands of feet of steam coils connected with 350-horse power boilers, which provide a summer-like atmosphere for the carrying on of construction, is an interesting and novel feature of the arrangements made to combat the difficulty of building the new wing of the Chateau Lake Louise, the Canadian Pacific Railway's famous Rocky Mountain hotel, under winter conditions. Thanks to this innovation, the wing, despite frequent drops in temperature to far below zero, is progressing excellently and the company expects it to be ready for next summer's tourist season.

ONE THING SURE

A NICE COLD BATH—

Re: New Act Respecting Contributory Negligence

An Act was passed last year dealing with Contributory Negligence in respect to automobile accidents. Under this act the party suffering the injury is not barred from claiming indemnity because he or she happened to be negligent in a contributory manner. He is still entitled to compensation or award, the amount of same depending on the extent of the injury or the extent of the contributory negligence.

This act undoubtedly places a further responsibility on the shoulders of the automobile owner and the recent trend of legislation and judgments seem to be in the direction of making the automobile owner responsible for any injury or damage he causes with his car.

Let us safeguard this MOTORING RESPONSIBILITY with a SMALL COST to you with a \$20,000 PUBLIC LIABILITY AND PROPERTY DAMAGE INCLUSIVE POLICY.
