Cleans Like China

When you use SMP Enamelled Ware Utensils, you never need to scrape, scrub and scrub the way some wares demand. Hot water, soap, a cloth—that's all you need to clean them. It washes like china, has the cleanliness and surface of china, but wears like steel. Don't be the slave of your cooking ware; equip with clean, pure sanitary, lasting.

FACTS ABOUT TEA SERIES—No. 6

Appearance of Tea No Guide

The only way to test tea is to taste it. Many people have the idea that a finely rolled and tippy tea is superior in flavour to a large rough leaf. In reality this is not of necessity the case. The altitude at which the tea plant grows determines the amount of essential oil and alkaloid theine in the leaf. The essential oil gives tea its flavour; the theine contributes the stimulating value. The only way to insure always receiving a uniform quality is to insist upon a skilfully blended and scientifically sealed tea like "SALADA" whose reliability, goodness and delicious flavour have become a household word.

"SALADA"

Notes and Comments

Mothers Day

Mothers Day
May 10th

MOST of all the other beautiful things in life come by twos and threes, by dozens and hundreds. Plenty of roses, stars, sunsets, rainbows, brothers and sisters, aunts and cousins, but only one mother in all the wide world.

MOTHER! Dear, sacred name, and how slow we are to prompt. The height and depth and dulcetness of perfect mother love. We take her tender daily care, just as we take the thoughtless flowers. Look up to God for daily light, because we know 'tis ours. But when we miss from heart and life, the comfort of her care, Then we must learn to live without her presence and her prayer. 'Tis then the name of mother in to us a holy thing: And, hovering low, we seem to feel the shelter of a wing.

—Luzie Harding Underwood.

Will Enter Guelph Over Steam Road

The Guelph Mercury of last week says: "That there was more significance attached to the visit of Mr. David E. Galloway, assistant vice-president in charge of C.N.R. electric lines and government merchant marine, and party, to Guelph last week, than was given out in the opinion expressed by a Guelph man well versed in local railway matters. He believes the visiting officials were here for the express purpose of deciding on the advisability of going ahead with a projected 'short cut' would connect the Ontario Electric whereby the electric cars could be brought into the city over the C.N.R. main line. Although they were only in the city two hours, arriving at noon Friday and remaining until two o'clock, Mr. Galloway, with the other officials, including E. W. Oliver of Toronto, manager of electric lines, C.N.R., went over the ground over which, it is said, the proposed 'cut-off' will run, if it is decided to go on with the project. From what can be learned the children of 'short cut' would connect opposite the Ontario Reformatory. The crossing at the C.N.R. where the suburban company is obliged to keep a watchman the year round, would be dispensed with, the electric cars would be brought across the river over a new bridge east of the present C.N.R. tracks, where it would connect with the C.N.R. line, which would be electrified from the point of junction as far as the C.N.R. station, which would be used as a western terminal.

By doing this the company would do away with the section of the road from the present Speed River Crossing to Brooklin, and would not be obliged to pay an annual several thousand dollars for running rights over the Guelph Hydro Radial Ry. The waterfalls at the Speed River crossing which salaries are paid by the Canadian National Electric Railway Company any could also be dispensed with.

The Inspectors Post

Consider the business mind and how he suffers inspection—not gladly as fools are suffered. A man comes along and inspects his weight and measures. Three dollars, please or more, as the case may be, whether the scales are correct or not. Another comes along to see that tobacco is in the caddy it belongs to. If displayed elsewhere it is a punishable offence. Others come to inspect the butter, the cheese, the extracts—flour lurking all about. Others come to inspect the life, the boilers, the heating plant, the machinery, the lavatories, the building in general. Still others demand to see that the minimum wage scale is posted up in a conspicuous place where the employees can see it. If you have some change made in the wiring of your shop or house an inspector must needs come to pass upon it. Other inspectors come around to see about the pool rooms, about the amusement tax, about the income tax. These are but a few of the many appointees of the federal or provincial governments, who travel through the country to see that the laws that they have managed to get through parliament are being obeyed. There was at the outset some plausible public reason for the existence of all these inspectors, but the fact that the public expenditure is a branch of an old department at Ottawa or Toronto. It all adds to the public expenditure and the cost of living and the harassment of business men.—Kincardine Register.

To Elect Bishop

A special meeting of the Synod of Niagara, to elect a successor to the late Bishop Clark, will open in the parish hall, Christ Church Cathedral, Hamilton, at 1 p.m., on Thursday, May 11th. His Grace, most Rev. George Thornloe, Metropolitan of Ontario, will preside. The election will be by ballot. Ninety-three clergymen and two hundred and nineteen laymen are entitled to vote. There cannot be candidates for the office, but many eyes are turned towards Very Rev. Dean Davenport Owen, D.D., rector of Christ Church Cathedral, and the logical successor to the bishopric; others are looking to the bishop of Fredericton; to Ven. Archbishop George Forrester, Ven. Archbishop Macintosh, of Kingston; Ven. Archbishop N. I. Perry, Welland; Rev. Canon Scott, M.A., Guelph; Ven. Archbishop Cody, M.A., Toronto, and various other outstanding clergymen who deem worthy of so high an honor and responsibility. The general feeling, at present, however, seems to be that there is within the diocese of Niagara a man who, under the auspices of God, would bring to the office honor and an ability to continue, effectively, the great work of the church in this part of Canada.

—Ob, very well, everything else is changed. Why not cut down my old pants to fit dad? There are still windows in my room." The typographic operator left the "a" out of windows and the man's wife made a flying trip to the city to see how her husband was getting along.

Notes and Comments

THE THOUSANDS OF United States citizens are seeking information from the Ontario Government about roads and touring in Ontario. The Government has a new map showing all the main roads, and these are being sent to those making inquiries.

A NUMBER of complaints have been made regarding chickens running at large. This is garden time and flower seeds and bulbs and other seeds are being planted. The Horticultural Society is doing a great deal of work towards beautifying the town and all should help. As everybody knows, a garden and flowers are impossible with hens running at large.

AGAIN WE MUST impress on our readers that communications sent to the Herald for publication must bear the signature of the writer. It is not necessary that the writer's name be published, but we must have his or her signature to the manuscript before we will give it recognition. A person who is ashamed or refuses to sign his or her name to a letter should not expect a publisher to give it space in his paper.

SOMEONE HAS advanced the opinion that the letter "Z" is the most unfortunate letter in the English alphabet, because it is always out of cash; forever in debt, never out of danger, and in debt all the time. For some reason he overlooked the fortunate of the letter as we call his attention to the fact "Z" is never in and always in peace. It is the beginning of existence, the commencement of ease and the end of trouble. Without it there would be no meat, no life and no heaven. It is the centre of honesty, making us perfect and without it there would be no editors, devils or nuns.

PROBABLY MORE carelessness is shown in passing other vehicles, particularly those going in the same direction, than in left all the time. For some reason he overlooked the fortunate of the letter as we call his attention to the fact "Z" is never in and always in peace. It is the beginning of existence, the commencement of ease and the end of trouble. Without it there would be no meat, no life and no heaven. It is the centre of honesty, making us perfect and without it there would be no editors, devils or nuns.

THERE IS LITTLE doubt that the next decade will see the standardization of instrumental procedure in the public schools, that all the children of all the people may secure at public expense a fundamental training in music as can be consummated in the twelve years of school life in conjunction with the academic subjects which everyday existence and educational requirements demand. This leads us to consider music as a vocational subject, a phase which has not received much consideration. The demand for experienced performers upon the usual musical instruments is as great today as in the past, and the augmented orchestra march in some cities. The demand for experienced performers upon the usual musical instruments is as great today as in the past, and the augmented orchestra march in some cities. The demand for experienced performers upon the usual musical instruments is as great today as in the past, and the augmented orchestra march in some cities.

IN AN ADDRESS during the closing week of the Ontario Legislature, advocating the claims of small town hospitals, among other good points, Hon. Dr. Janes made the following: "While many committees as well as other investigators and reports on the high cost of living I believe it would be desirable and proper that an investigation be made into the high cost of living. I am sure every member of this Legislature realizes that under modern conditions, when a case of illness occurs in a family and nursing and medical attendance have to be had according to the latest ideas of the prevailing fashion, it becomes a burden to service the services of a high class surgical specialist and a corps of registered nurses. Then if the patient happens to die and a fashionable funeral is held by one of these newly named 'undertakers' or 'funeral directors' or 'morticians' followed by the tombstone man, the average citizen of life-time of an ordinary citizen will disappear—even before the estate falls into the hands of the lawyers."

A man, convalescing in a city hospital, wrote to the local paper describing his experience. In speaking of his cheerful surroundings, he said: "There are still windows in my room." The typographic operator left the "a" out of windows and the man's wife made a flying trip to the city to see how her husband was getting along.
