PHONE 180

F. ROGERS & CO GEORGETOWN

DY telephone you can talk with your neighbour or with an individual thousands of miles away. By telegraph you can span the continent; by cable your message can girdle the earth.

In like manner you can use the service of the Bank of Montreal in little or large measure as the occasion demands.

You can transact business of a purely local nature or enter into financial dealings with people in any part of the world.

Like the telephone, telegraph or cable, our system of financial service is as extensive as are the needs of our customers.

FACTS ABOUT TEA SERIES No. 7"

## The Advent of Tea to England

Tea was not used to any extent in England till about the middle of the seventeenth century, although knowledge of the wonderful qualities of the beverage had reached Europe as early as 1517. During the seventeenth century, all tea was imported from China and cost from \$25.00 to \$50.00 per pound. Not until 1836 did any tea reach England from India. In that year the first shipment was made from the now famous tea growing district of Assam. India today supplies fully half, the world's tea requirements and provides some of the finest teas grown. The rich body of "SALADA" is due to the select India teas used in the
