Are You Protected?

TUCKING BABY IN

How fair and innocent he lies, Like some small angel strayed; His face so softly warmed by God's own smile;

That plumpers unafraid, Or like some new embodied soul, Still pure from taint of sin, My thoughts are reverent as I stomp

To tuck my baby in.

What toil must stain these tiny hands That now lie still and white? What shadows creep across the face That shines with morning light? These wee, pink, shoeless feet—

How far—how lengthening tread, When they no longer cuddled close, May rest upon this bed?

O, what am I that I should train An angel for the skies, Or mix the potent draught that deeds

The soul within these eyes? I reach him to the sinless Hands Before the cares begin— Great Father, with Thy folds of love, O tuck my baby in.

—Curt's May

Here and There

It is expected that the present year will break all records in the movement of Eastern trans-Atlantic travellers. It is estimated that over a quarter of a million Americans and Canadians will travel to Europe during the season.

The supply of farm hands for Western farms is not equal to the demand and the shortage is becoming more pronounced as the season progresses, in spite of the large number of immigrants coming from Europe for this purpose.

During the eight months ending March 1925, 187,798 cars of grain were passed by the government inspectors for the western provinces. This number has only been exceeded four times in the past twenty-four years. Of the total for this year, 108,566 were on Canadian Pacific lines.

According to a statement issued by the Bureau of Statistics, Canada's production of commercial fruits for the past year showed a decrease of \$5,902,912 in value as compared with 1923. The total value of fruits grown in 1923 was \$33,169,343 and in 1924, \$24,266,431.

There has been a decided increase in the first quarter of this year in the ordinary life insurance written in Canada as compared with that of the corresponding period in 1924. The increase in March over February was from twenty-eight to thirty-five million dollars.

According to the first weekly report issued by the Canadian Pacific Railway, the crop average this year will be slightly less than last. It is estimated that Manitoba will show about 2,645,000 acres this year, Saskatchewan 8,555,183 and Alberta 2,721,689 making a total area of 18,919,872 as compared with 14,153,905 in 1923.

Very encouraging reports as to the general agricultural outlook in Southern Alberta have been received from Canadian Pacific Agents around Calgary. Much more progress has been made with seeding than was anticipated and conditions are described as either "splendid" or "fair" or good and in every case plenty of moisture in the ground is reported.

The country is being besieged by moving-picture stars. Mary Pickford, Viola Dana, Tom Mix, Harold Lloyd and others have passed through within the last few weeks, and explored the Rocky Mountains and other Canadian attractions. The latest is Hoot Gibson, who is bringing a large company of movie people here to film the Calgary Stampede as an incident in a "super" drama.

Lord Aberdeen and Tremain, former Governor-General of the Dominion and Lady Aberdeen passed through Canada recently with the British delegates to the seventh Quinquennial conference of the International Council of Women, of which the Marchioness is president and founder, at Washington. On the bridge at Niagara Falls Her Ladyship was presented with a golden key symbolic of free entry into the United States.

That Hollanders who have located in Alberta are making good and are satisfied is the statement of Baron W. Van Heeckeren, of Rotterdam, after a recent tour of investigation.

The forming of a mining bureau as a branch of its activities is announced by the Winnipeg Board of Trade. The bureau is to collect data on the mining situation in the province and will do everything possible to foster greater mineral production in Manitoba.

Tourist traffic in Canada this year is likely to constitute a new record, in the opinion of the Commissioner of Parks. No estimate has been compiled as yet but the figures for 1923, which were carefully estimated at \$136,000,000, indicate the value of this traffic to the Dominion.

Up to the end of October, 1924, more than 1,000 circulating libraries were in operation in Saskatchewan, as compared with about 800 at the same time in 1923. The average number of families reading each book is 17. More than half a million volumes were circulated by these libraries during the year.

SELF-OILING — SELF-REGULATING

With the Strongest Tower Built

It's the "Toronto" Self-Oiling Windmill—requiring "oil only once a year". All gears operate in a bath of special oil affected by neither heat nor cold—every bearing and working part thoroughly and automatically lubricated.

If you have a "Toronto" Windmill now, you can obtain this self-oiling feature by interchanging the head and using your present wheel. Most Toronto Windmills, too, can be made absolutely self-regulating in operation. The "Toronto" Tower will stand for a lifetime because it is the heaviest, strongest and best-braced one built for any windmill. See this new Mill now—get my booklet.
