THE HOME LIGHT FACTS ABOUT TEA SERIES-No. 8

The Consumption of Tea

Ten as a beverage is used in nearly every country in the world. It is estimated over 200 billion cups are consumed annually. Australia leads in tea drinking with an annual per capita consumption of about nine pounds, which means that every Australian consumes from six to eight cups of tea every day. The consumption per capita in England is 81 lbs., and in Canada nearly 5 lbs. In the United States, it is less than, 1 lb., but this is largely because Americans have not been able to get fine teas until comparatively recently. "SALADA" is considered one of the choicest blends on the market, and is the largest selling tea in either United States or Canada.

Mack clouds hang overbead.

its tale of grief and woe, And the tall, dark trees beside the In sadness whisper low.

Gloom everywhere, the dreary The wind : the rain : the cold : Dampen my spirite and I lag, Like one, toil worn and old. On, in the dead of the darkness,

I plod, then stop to tbrill;

Before me shines a light-of home The gloom of night to kill. My heart beats faster and my step Grows lighter, quicker-free. That gleam of welcome through the dark

Brings joy of life to me. Nearer I draw. Before the light A shadow comes-a form. Now someone peers into the night into the dark and storm. Someone watches: someone waits

Will come from out the world of and darkness swirling by. Oh happy thought; oh joyous

Someone hopes that I

The day's reward has come, For someone's waiting : someone Someone cares, at home.
