

The Right Way to Boil Potatoes

Put the potatoes in an SMP Enamelled Potato Pot. Cover with water. Add salt to taste. Boil until soft. When finished, drain off all the boiling water through the strainer. No danger of steam scalding the hands, because the handle securely holds the cover on. If you really use potatoes, you require one of these.

LILAOS

'Twas bluish morning as I went Along the old grey road, Acknowledging the riches lent By heaven, the debt I owed, While there in thankfulness I said My bosom's genial prayers, A sturdy throatin' overboard, As though a cheapjack calling wares, Cried, "Lilac! Lilac! Lilac!" And there, not many yards away, A lovely line showed The girliness of her array To me upon the road, At once assembled to depart A flock of petty cares, And quicker than the thrush, my heart, As though a cheapjack calling wares, Cried, "Lilac! Lilac! Lilac!" 'Twas then I felt a perfect thrill Possess me while I strode, As napper as the thrush to trill Along the old grey road. For though the bridal chorion bring Delight with neighbor peers, The top of magic comes when spring Made vocal by her fragrant wares, Cries, "Lilac! Lilac! Lilac!" -Norman Gale.

Here and There

According to the Alberta Provincial Department of Agriculture nearly a quarter of a million bushels of oats were shipped from that province to New Zealand for seed purposes last winter.

The Quebec Provincial Automobile Bureau estimates that well over 100,000 automobiles will be registered in that Province during the year. This will mean an increase over the 1924 registration of about 45,000 cars.

The 1924 exports of live cattle to Great Britain exceed the 1923 figures by over twenty-two thousand heads, according to the official Canadian returns. Exports to the United States also showed a slight increase.

Four small wooden vessels to act as tugs and feeders from Coronation Gulf to Herschel Island in the Arctic, are being built at Vancouver, B.C., to the order of the Hudsons Bay Company. They will be well powered and sheathed in iron bark.

There is now only one mine in the Crow's Nest Pass district idle. Between eight and nine thousand tons of coal are being mined there daily and the mines at Coleman, Blairmore and Bellevue are rapidly striking their stride, their output being about six thousand tons.

Although the chief beneficiaries under the new British preference proposals will be Canadian sugar, tobacco and automobiles, it is stated that Canadian wines and silk goods will also benefit to a certain extent. In the sugar preference an increase of about 25%, and in tobacco of from a fourth to sixth has been made.

By a recent Order-in-Council of the Lieutenant-Governor, premiums for clearing land, which had previously been set at \$6 an acre, were increased to \$8. The Order also provides that the premium will be paid for a maximum of twenty acres of land and, as a result of it, a settler may obtain a grant of \$160 from the Government as a reward for his work.

The annual invasion of Canada by anglers from the United States has commenced. F. N. Peet, secretary of the Isaak Walton League of Chicago, with other members of the League is catching salmon at Cairns River, N.B., while a party of prominent newspapermen from New York is at Lake Archambault, in the Laurentians, in quest of the elusive trout. Mr. Peet holds the world championship for casting a fly.

Walter Lindley-Jones, editor and founder of the Mercantile Guardian, of London, Eng., and an authority upon commercial matters in general, recently passed through Canada on the last leg of a journey around the world, by Canadian Pacific steamships and trains. Mr. Lindley-Jones states that a terrific boom is due in China as soon as hostilities cease there and that Great Britain and Canada will be the chief beneficiaries.

THE Brampton Driving Club

WILL HOLD THEIR

Race Meet

Admission - 50c; Grandstand 25c, Child, 25c and War Tax.

C. WILDER, JOHN SPREAS, Secretary, Box 682, Brampton.

The Greatest Service - The Least Attention

There's no piece of farm equipment that gives so much service over so long a period with so little attention as a good windmill. That's why I recommend the Toronto Self-Oiling Windmill so highly. Lots of Toronto Windmills have given from eighteen to twenty years' service with practically no attention outside an occasional oiling - and are still operating satisfactorily every day.

In the Toronto Self-Oiling Windmill all gears operate in a bath of special oil affected by neither heat or cold - every bearing thoroughly and automatically lubricated. New oil is required "only once a year."

If you already own a Toronto Windmill, I can give you the self-oiling feature by merely interchanging the head and using your present wheel. Most Toronto Windmills, too, can be made absolutely self-regulating in operation.

MELLOTTE ORIGINAL Cream Separators

Make Money for Farmers

WITH it the cream does not escape down the milk spout. It goes into the cream mill and makes you money. It will skim as clean twenty years from to-day as when new because the suspended bowl never gets out of alignment - never vibrates and causes ripples on the milk which prevent perfect separation.

The Melotte is unique in this respect and the favorite of dairy men throughout the world. Come in and examine this famous money maker.

On McLaughlin-Buick - Torque Tube Drive

THE fine engineering in McLaughlin-Buick motor cars is demonstrated by the torque tube drive. This is a steel tube which transmits the drive from the rear wheels instead of adding this important duty to the burden of the rear springs. The torque tube also encloses and protects the propeller shaft. This type of construction also holds the rear wheels in alignment regardless of road conditions.

"As indispensable as the Telephone"

"As indispensable as the Telephone" is now a favorite slogan used by many large manufacturers in their advertising when describing their goods.

A frank recognition that speed of communication is the most vital factor in expanding business and social life.

Indeed, a firm's position in the business world may be fairly judged by the extent to which it uses the telephone - and especially Long Distance.

We now handle an average of over 41,000 Long Distance calls a day.

Costs a family less than 2% of its annual outlay
