McLaughlin Buick

No. 5

Question: Why does McLaughlin-Buick use a one-piece front axle?

Answer: For safety and strength and care-free service. The McLaughlin-Buick type is a one-piece, drop-forged I-beam. There are no brazed or welded parts to break off. In case of accident it can be easily straightened without the necessity of replacement. You can depend on a McLaughlin-Buick axle.

MEMORIES OF HOME

I remember a dear little cottage,
 Down by a sheltering nook,
 It was built in a bed of sweet
 blossoms

Which grew by a wee tinkling
 brook,
 Every object around it seemed
 hallowed,
 Where ere in this earth I may
 roam,
 Even dearer it seems since I wand-
 ered,
 Away from that spot, 'twas my
 home.

Years have come and gone by, each
 one bringing
 its object of joy or of woe,
 For we all must drink equal of
 life's cup,
 Of bitter or sweet as we go,
 May the river on which floats my
 life's bark,
 Abide while in its onward flow,
 Till I breathe once again in that
 home nest,
 Then I will be ready to go.

How I loved that dear vine cover-
 ed cottage,
 Of all earth to me 'twas the best,
 When light barred and gay 'twas an
 Eden,
 When weary, a haven of rest.

Township Council

Stewarttown, July 29th 1925

The council met pursuant to
 adjournment the Reeve in the
 chair members all present, the
 minutes of the last meeting were
 read and confirmed, also minutes
 of special meeting of June 27th.

Notes and Comments

MANY OF us often wonder if one
 should be optimistic or pessimistic
 regarding the future. It is true
 that some are confirmed pessimist
 without reason and some may
 be confirmed optimists without
 reason. But we cannot help but
 feel that there is every reason for
 optimism in the trend of events.

Our chief reason for feeling that
 the world is growing better is more
 of a mechanical one than a spiri-
 tual one. The mechanical develop-
 ment of the past few generations
 have wrought great changes in our
 lives. They have helped us to
 come into closer communication
 with each other and thus have
 helped us to understand each other
 better.

Our grandfathers saw the steam
 boat and the railroad come, our
 fathers the telephone and iglo-
 radio, and we the automobile, the
 plane and the movie and airship.

These all have helped us to make
 greater use of time and space and
 thus have helped to broaden our
 minds and eliminate blind prej-
 udices.

Carried.
