CHICKEN THIEVING has become

throughout Ontario and strong through the ages as the lowest, meanest and most degraded occucan engage. So much so that it practice carried on only by the lowest class of the colored race "free gratis" work done on said down in the Southern States. Today we find that some of our own team, Ezra Bill I day man and chicken stealing. During the past ing the past .year or more, the Halton have suffered beavy losses through baving their hen roosts raided by thieves. Now the ques that the By-Law be now read a tion arises, how long is this sort of thing going to continue and what can be done to put a stop to as the farmers are willing to put farmers throughout the different municipalities brganizo a protective association and engage some one who will spend their time in following up each case of theft. If this were done we believe the results would be much more satisfactory than they have been in the past. True it is we have a good staff of constables and detectives throughout our country, but these men cannot sit beside the farmers hen roosts continually as their services are very often required elsewhere. Apparently there are quite a number of people who look upon this matter as one of not very much importance. To any who would entertain such an idea we would say that it is of very great importance. We must remember that the poultry and egg

industry of this country is in its infancy and if thieves are allowed to run at large this industry will always be in its infancy. The ordinary farmer's flock of laying hens is of more importance to the What is believed to be a copy community in which they are kept Forbes, to the Guelph Reforma. Sun. "It shines for all."
