Almost An Accident
 A gentleman in town was returning home by way of the Normal road in his car one evening last week when some one in a passing car threw an apple and struck the windshield immediately in front of the driver. He was blinded for a minute by the force of the impact and the bespattered windshield and a serious accident was narrowly averted. It is to be hoped the guilty party will see the seriousness of such conduct and not repeat it.

Fire In Auto Accident
 Herbert Hogg, First Line West, Chingacocung, had several ribs broken and was badly shaken up in an automobile accident that happened Sunday afternoon at Victoria, a busy intersection on the Centre Road, about 10 miles north of Brampton. Mr. Hogg was proceeding east, and Elgie Delaney, driving S. P. Fleming's car of Brampton, was going north when the latter car struck the eastbound car with such terrific force that it knocked it 20 feet into the ditch. The Brampton car made a complete turn from the force of the collision. Mr. Hogg, who was alone in his car, was thrown into the fence. With Mr. Delaney was his parents and two others, but no one was hurt in the heavier car. Both cars were badly damaged. Motor traffic on the Centre Road was very heavy at the time of the accident.

Church News
UNITED CHURCH
 Rev. Dr. Dickie's subject at the United Church next Sunday morning, Aug. 30th will be "Christ the only way to the Father."
 Rev. Mr. Caldwell's subject for Sunday will be "The doom of the wicked."
 —Farmers are pretty well through with their grain harvest in this vicinity.
 —Walkerton's tax rate is 52 mills; Acton's rate is 44 mills. Guess we haven't much kick coming at 48.

WINTER WHEAT FACTS

SUPERPHOSPHATE IS AN ESSENTIAL FOR BEST RESULTS.
 The Cost Is More Than Repaid—The Heaviest Yield In Ontario—O. A. C. No. 104 Winter Wheat—Growing Hubam Sweet Clover With Oats.
 (Contributed by Ontario Department of Agriculture, Toronto.)
 The department of chemistry, Ontario Agricultural College, during the past season, and are sorry to lose them. May health, happiness and prosperity continue to be their lot in their new home in the wish of Georgetown citizens.
 The phosphates gave an increased yield in every case, averaging 50% per cent.
 (2) The catch of clover was wonderfully improved by the phosphates. (3) Size and quality of grain was increased, as well as yield, by phosphates.
 (4) The cost of 400 pounds of acid phosphate per acre was more than covered, leaving a substantial profit in every case.
 (5) It is estimated that approximately half of the phosphate remains in the soil for next year's crop.
 (6) Liming makes little difference to the growth and yield of fall wheat. Farmers are well advised to apply cold phosphate (superphosphate) to their fall wheat at from two weeks to four hundred pounds per acre.
 The Heaviest Yield In Ontario.
 In each of the past four years the Heaviest Yield in Ontario, O. A. C. No. 104, has been working more or less in the winter wheat crops of Ontario. In the Field Experiment Department at the Ontario Agricultural College the average of this past year has been studied in each of forty varieties of winter wheat. The following table shows the results of the winter wheat crops of Ontario, O. A. C. No. 104, in 1924 and 1925. The yield of the Heaviest Yield in Ontario, O. A. C. No. 104, in 1924 was 32.7 bushels per acre and in 1925 it was 32.7 bushels per acre. The yield of the Heaviest Yield in Ontario, O. A. C. No. 104, in 1924 was 32.7 bushels per acre and in 1925 it was 32.7 bushels per acre.
