GLORY OF THE DYING DAY

O glory of the dying day
That into darkness fades away!
O violet splendor melting down
By river bend o'er tower and town
O glory of the dying day
That into darkness fades away!

O splendor of the gates of night!
O majesty of dying light,
That all a molten glory glows,
Till purple-crimson fades to rose
And dying, melting, outward goes
On ripples on the even's riny,
When all the world grows faint and dim!

O silver sound of far-off bells
Ringing, ringing miles away
O'er river, fields, and fells,
Round the crimson and the gray,
Healing softly evening out,
As the dewy dusk comes down,
And the great night folds about
River, woodlands, hills, and town!

O glory of the fading hills!
O splendor of the river's breast!
O silence that the whole world fills
With a hush of peaceful rest!
Alone from the care of day,
Now a petalled star peeps in,
Now night's choruses begin,
Muted and far away.

O glory of the dying day,
When my life's evening fades away,
May it in splendid peace go down,
Like yours o'er river-bend and town—
Not into wintry muffled dusk—
But, heralded by stars divine,
May my life's latest evening ray
Melt into such a night as thine.
—By W. Wilfred Campbell.

HALTON LIBERALS MEET

The annual meeting of the Halton Liberal Association, held in the Princess Theatre at Milton on Jan. 26th, was largely attended. E. A. Harris of Burlington, presided. The following officers were elected for 1926: President, Dr. H. A. McColl, Milton; 1st Vice-Pres., Paul Fisher, Burlington; 2nd Vice-Pres., Mrs. McLean, Georgetown; Sec.-Treas., J. R. Peacock, Milton. Addresses on the political questions of the day were delivered by Hon. Nicholas P. Williams and Hon. Duncan Marshall, both of whom stressed the necessity of better organization in the county in preparation for future Dominion and Provincial elections, which they said, are liable to be held within a short time. A vote of confidence in Premier King and W. E. N. Sinclair, M.P.P., leader of Ontario Liberals, was carried unanimously by a standing vote.

MILTON

Dr. Joseph Teller left on Tuesday morning to undergo an operation at St. Michael's Hospital. He has been in bed for a month. Mr. E. Nixon took his trip to Toronto in his car. The jail population was reduced from ten to nine last Saturday by the release of a prisoner whose term had expired. It became ten again yesterday through the committal of the Milton Heights woman in default of payment of her O.P.A. fine. Milton was paid a visit on Friday, Jan. 26th, by the Radio Interference Car of the Department of Marine and Fisheries, in charge of Messrs. George Baldwin, of that Department, and John Dowling, of the Radio Battery Service, who had received several complaints of electrical interference from radio fans in the vicinity of Mill St.

The weather on Monday afternoon did not favor the annual meeting of the Halton Agricultural Society, but the attendance was large. The Treasurer presented a very satisfactory report. After 50 years' service as a director, one of them as president, he resigned after 12 years as treasurer. Officers for 1926 were elected as follows: Hon. Pres., W. E. McCready; Pres., E. Harrop; 2nd Vice-Pres., L. W. Chisholm; Sec.-Treas., A. L. MacNabb; Treasurer, J. M. Denyes and W. J. McClelland; Directors, D. Hartley, M. W. Clements, G. H. McArthur, Capt. Blacklock, W. J. Elliott, Wm. Reid, H. A. Brink, E. Graham, N. McCullum, Alex. Lawson, J. H. Wilson, Capt. Morden, C. Cann, A. E. Woodley, D. Reid, D. E. Fort, J. McGibbon, J. H. Houston, L. Chambers, N. A. Sinclair, E. Syer. It was decided to hold the society's annual fall fair this year on Sept. 30th and Oct. 1st—Champion.

ACTON

Mr. William Sprowl, late of the town of Acton, has purchased the brick residence of Mr. H. W. Hinton, on Lake Avenue. Mr. J. W. Jones, who has been manager of the Acton Co-operative store for the past few years, has assumed the grocery business of Jones and his late partner, Mr. J. M. George Soper, who has been a many years owner in the Council Chamber in that block or either adjoining ones—has sold his property and will retire from business as soon as he can dispose of his stock. He will improve the property, and then re-open there with his watch and jewelry and fancy goods business. The annual meeting of Acton Fair was held in the Council Chamber on Wednesday, Jan. 13th. The auditors' report showed a credit balance of \$22.65 for the year, in addition to the Victory Bonds purchased during the war.

Mr. George Havill and Mr. Alex. Waldie were appointed life members of the Society. The Board of Directors was then elected as follows: President, Wm. Johnston; 1st vice-president, Duncan McDougall; 2nd vice-president, R. J. Kerr; directors, W. K. Graham, L. B. Storey, Wm. Kenney, J. R. Kennedy, C. Woodhall, R. J. Ramshaw, D. Lindsay, E. J. Hassard, R. M. McDonald, S. H. Lindsay, D. Waldie, J. F. Robertson, R. W. Dredge, J. H. Duncan, Robert Chas. McClelland, Duncan Campbell, Chas. Lashy, Wm. Horton, N. H. Kerr—Free Press.

Milton Resident Dies.
Milton, Ont., Jan. 22.—Allan N. Bowman, one of Milton's well-known and highly esteemed citizens, died Friday morning, Jan. 22nd, after a short illness in his 74th year. Before coming to Milton he farmed in Esqueving township. He was a lifelong member of the Presbyterian Church and a Liberal. He is survived by his widow and one daughter, Mrs. K. Agnew, of Richmond Hill.

GENERAL NEWS

The office of village trustee does not seem to have a very great attraction for the men of the Police Villages of Elmvale and Cookstown. In each of these villages a second nomination had to be held in an effort to fill the office.

A Dundalk meeting had to be postponed temporarily because the groom had neglected getting the necessary license three days beforehand. This is a lesson to grooms to never neglect till to-morrow what they should have done the day before yesterday.

The balance of the 7,500 tons of Alberta coal for Ontario, which formed part of 25,000 tons brought in at a special rate, will arrive in Toronto within the next ten days, according to Hon. Charles McCrea, Minister of Mines. Distribution of this shipment throughout the Province will be on the same basis as past shipments.

Milton police are on the hunt for a gang of thieves who have been busy stealing clothes and garments from the clothes lines in Milton. The latest report to the police comes from two citizens, one in the North Ward and the other in the East Ward. Both lines were stripped of their clothes the same night, the total value being estimated at over \$500. As snow fell during the night, it was impossible to trace the footprints.

Surrounded by a number of their six children, twenty grandchildren, and twenty-two great-grandchildren, Mr. and Mrs. Joshua Anderson, Anderson's Island, Hastings County, on Jan. 21st, quietly celebrated the one hundredth anniversary of Mr. Anderson's birth. Mr. Anderson was born in Murray Township, Northumberland County, on Jan. 21, 1826, one mile from his present home, where he has resided for 80 years.

Owing to a decrease in the grants, the Streetville Fall Fair last fall suffered a deficit of \$75, according to the report made at the annual meeting of the Toronto Township Agricultural Society on Jan. 13th. The following officers were elected: President, F. Leal; 1st Vice-Pres., G. E. Adams; Secretary, G. V. Reid; Treasurer, J. Edward; Board of Directors, McIlwain, Leal, Adams, Rev. Frank Vipond, James Dandic, W. S. English, O. Turney, A. Adamson, John Dowling, David McCaughey, W. Cooper, J. B. Ross and J. A. Featherston.

The Bank of Montreal, Fergus, has been appointed as recorder of taxes (to-day) at a remuneration of \$75, provided the bank keeps open until 9 p.m. the day of each payment. A. R. Agar will collect arrears of taxes for 3 per cent.

The municipal officers of Eramosa Township Council were appointed at the meeting last week as follows: J. Aldon, Clerk, salary \$140.00; Robt. Scott, Assessor, \$175.00, and \$10.00 for distributing dog tags; S. Dunfield and N. H. Black, auditors, \$5.00 each per day. A serious situation is developing in the coal mining industry in Alberta, 17 mines in Wayne and Drumheller alone being practically closed owing to the coal shortage in the West and consequent lack of working mines alone are in a position to load and ship from 10,000 to 12,000 tons of domestic coal daily to Ontario. The railroads will carry it at \$7 per ton.

Shades of the War of 1812, tales of buried treasure, and precious stones, or maybe a huge store of century old wines—and other possibilities of romance or worldly gain, are being excavated by workmen at Fort Talbot, St. Thomas, on the shore of Lake Erie.

Aged Lady Fractures Leg.

Mrs. Mary Rickman, of Everton, 86 years of age, is confined to the General Hospital, Geoluph, suffering from a badly fractured leg, which she sustained during the temporary absence of Miss Reed, with whom she resides. Mrs. Rickman left her room, and stepping outside, fell in some unknown manner, doubling her leg beneath her and breaking it at the knee. She was removed to the hospital shortly afterwards, and is getting along as well as could be expected, taking into consideration the serious fracture and her advanced age.

Fatally Scalded.

Last Wednesday, at the Sick Children's Hospital, Toronto, little Irene Harris, of Cheltenham, died from the effects of scalding. The child, who was in her fourth year, was the daughter of Mr. and Mrs. Bert Harris, whose farm is near Cheltenham. On Thursday night it became one of the boys of the family filled a pail with boiling water to take to the barn. He carried it to the barn, and for a moment, little Irene, playing about, fell backwards in the hot water and was scalded. The physician called, after doing what he could to alleviate the child's suffering, ordered her removal to the Sick Children's Hospital, which was immediately done. On Monday it was decided by the hospital authorities that only a transfusion of blood could save the child, and the mother gave the required amount. Despite every effort of doctors and nurses, little Irene passed away. Mr. and Mrs. Harris have the heart-felt sympathy of Cheltenham district in the tragic loss of their little girl.

Bonus on Wolf.

Last Wednesday Earl Thurston, of Georgetown, brought the skin of the bush wolf which he killed about two weeks ago to the County Treasurer's office, and applied for the bonus of \$15. Before he gets the money the skin must go to Toronto, where the ears will be cut. It will be returned to Thurston when he is paid. Halton's last experience with a wolf was in the winter of 1865-70, when a large one, of the timber variety, ranged through the woods between Milton, Mills and Speyside, and at least once was close to Peru. It killed a great many sheep. The late Samuel McNaughton was reported to have been between forty and fifty in one night. At that time the statutory bonus was \$5. On account of the sheep killing the county council voted a by-law on March 1st providing for the payment of \$30 for every wolf or lynx killed in Halton. Following that, the Sagaways followed suit, but nobody got the wolf. It was supposed to have been a timber wolf, which was set out just before a heavy snow storm, as it was never seen or heard of afterwards. One of two men were paid the bonus for killing lynx. The county by-law was repealed in 1881. —Milton Champion.

Notes and Comments

NEW PROHIBITION regulation prohibiting the use of whisky, brandy or gin in medicinal preparations have been issued by Assistant Secretary of the Treasury Andrews, United States. The rules are effective Feb. 1, 1926, and apply to all medicinal preparations, and to extracts unfit for beverage purposes, except in specific cases.

AS A PRISONER under death sentence is always given a chicken breakfast just prior to the execution, so a veteran lawyer, who has learned to temper justice with mercy, believes that farmers, before setting out with their hogs for the slaughter, might throw some straw over the pigs in winter so that the death journey into town might be attended with a little comfort by the porkers, which, he declares, are particularly sensitive to the cold. The straw wouldn't be what the pig would eat, but it would be what the farmer would eat, and if this little formality would enable us to eat sausages from pigs that died happy, it wouldn't be in vain.

LAND SPECULATION of the Florida kind is like buying stocks on a bucket shop margin—the bucket usually gets your money and you retain the experience. Naturally there is a large quantity of "stage money" figuring in these Florida land deals. A lot of the stuff is bought at what might be termed a "shoe string" with the idea of making a quick turnover. The "boom" from first to last is unsound fundamentally, and as such is bound to collapse. The boom will end when new money ceases to flow into Florida. In other words, the bubble will burst when the northern people awake to the fact that Florida land is no more valuable than other land.

SOME PEOPLE in small towns complain that the big cities draw all the business from rural communities. This is a mistaken idea. All over the country there are shining examples to prove that manufacturers, merchants, mill operators and numerous other productive enterprises are established, thrive and distribute their products more economically from small towns than from a populous centre. Many successful businesses are manifest in small towns, and in rural districts, and which will analyze its possibilities and then go after the business can build itself up along sound industrial and commercial lines.

WITH THE SUN of prosperity beginning to rise over the Canadian horizon, native sons are returning to their homeland after temporary exile. Orval Adams, Inspector of Immigration at Windsor and Walkerville, announces that it is his belief that now the tide of Canadian returns is increasing to their homes equals the number that are still seeking employment across the border. During December more than eleven hundred Canadians returned through the United States, which he has jurisdiction over. Certainly in every province there are definite signs that indicate the coming of renewed prosperity and indeed in some quarters there are whispers of a boom.

A SUGGESTION made by Mayor Murdoch, of Durham, in his inaugural address, is well timed, and worthy of attention in some other councils. Mayor Murdoch requested that in talking on all discussions, council members should rise and express themselves with sufficient volume to be heard by any who might be present in the council room. It was their business that the council was dealing with, and any discussion that came before the council. There is not much in the suggestion for it is hardly that the spirit of what is going on on account of the inaudible remarks of some member.

GOVERNMENTAL red tape has outdone itself in Woodstock. The city wanted to light up the war memorial, and to accomplish this they found it necessary to put a screw in the wall of the Armories. But permission to put the screws in the wall had to be received from the military authorities. With considerable pomposity the city was "granted" the privilege of defacing the armories to the extent of inserting one screw in the wall. Then to cap the whole affair a bulky document from Ottawa arrived to say that 25 cents a year rental would be charged for the space. This is the sort of poppy-cock that much of the taxpayers' food money is spent on. The best description of the whole affair would seem to be to the immortal words of Ring Lardner: "Now we know what the other half lives without working."

REGISTRATION of all drugstores practitioners in the Province of all descriptions is required by the new Ontario statute which passed as law at the last session and which went into force yesterday. The statute was signed by the Lieutenant-Governor on the completion of regulations drafted by the Board of Regents, which board was appointed by the Ontario Government to generally administer the terms of the act and regulations approved by the Government. These regulations are held as extremely important, and have been the cause of many conferences at Queen's Park between the board and Government officials. Osteopaths, chiropractors, masseurs, chiropodists and druggists came within their field. Through the functioning of these regulations the whole business of treating human ailments by the druggists' profession—osteopaths not included—will be brought under a special statute, and brought under the direct control of the Board of Regents, and, through them, the Ontario Government.

Money in Penny Banks.
School children have on deposit in the Penny Bank at Ontario a considerable sum of \$731,430.39. In fifty-four other municipalities the bank operates associating with the School Boards, and only in fourteen is the money on deposit less than \$1,000 each. Ottawa children have \$33,825.55. London deposits \$20,141.10. Geoluph, \$15,068.38. Niagara Falls and No. 6 Stamford, \$10,122.21; Sault Ste. Marie, \$7,593.12; Welland and Crowland, \$1,492.31; York County, \$10,653.11.
