Nothing to Sell

It is a mistake to speak of buying life insurance. Insurance protection is really a sure and convenient method of arranging your personal financing.
You know for instance, of certain obligations which you must be ready to meet—
—you wish to provide for your child through college.
—you wish to provide the money to enable your boy to acquire a business of his own—to buy a farm of his own, perhaps.
—you may wish to provide additional security for your business.
—you may wish to provide a pension for your own old age.
Life insurance enables you to make a sure and convenient provision for any such objective, and to make sure that your objective will be attained.
It will be a pleasure to tell you about any of these services in which you may be interested.

Divorced!

THE calendar and Studebaker cars were divorced June 18, 1925. Studebakers are now kept constantly up-to-date. Improvements are added regardless of the calendar—not saved up for spectacular annual announcements which make cars artificially obsolete.
