

WE FEEL SURE that spring is here at last and the time to clean up has arrived. Go out and look over your premises. Dope the fence, the shed, the other outbuildings look as though they needed some repainting or some paint to brighten and preserve them? Would your surroundings be made more attractive, more cheerful by the planting of a shrub, a tree, a bed of flowers? Does your lawn need attention? Does your house need painting? Georgetown has earned the reputation of being an attractive town. Will you help make it more attractive? If every citizen would do a little in that direction, how much more attractive our town would look. All it requires is a little thoughtfulness, a little energy, and the expenditure of a few dollars. In fact a dollar paid for your membership in the Horticultural Society will bring you sufficient shrubs and plants to make your surroundings much more attractive and you will be more than repaid. Try it!

Here and There

Charles Redlock, house-mover of Calgary, Alta., has undertaken what seemed to be an impossible task of moving sixty houses over mountain roads from Banff to Banff. In forty days he moved thirty-eight of the houses six and a half miles.

Exports from Canada for the month of February were \$87,512,147 while imports were recorded at \$70,908,980 for the same period. For the twelve months ending February 28 last, exports reached a value of \$1,297,744,683 while imports were fixed at \$911,107,055.

One of the largest business transactions recorded in the West took place here on March 11th last when the Canadian Pacific Railway, What Producers mailed approximately 190,000 cheques amounting to a total of \$37,000,000 to members of the wheat pool.

The rapid development of the fish oil and fish products industry on the Pacific coast this year may necessitate the fitting up of three coastwise vessels as tankers to carry oil from the production plants. Last year one vessel found this method successful. Fish reduction plants, it is estimated, will produce 10,000 tons of fish meal and fertilizer this year.

President E. W. Beatty, of the Canadian Pacific Railway, has asked approval of the shareholders for the construction of two new passenger vessels of the type of "Montcalm," "Montclair," and "Montrose," to be available for service in May, 1927, and five freight vessels of 8,500 tons, with a sea speed of about 14 knots, also to be ready for 1927.

During the past season 1,225 moose and 3,508 deer were killed in New Brunswick. Of the former 207 fell to the guns of non-resident hunters and 617 of the latter. In the same year animals killed for fur included 1,567 raccoon; 6,017 skunk; 18,314 muskrat; 5,410 foxes; 9,470 ermine; 177 martin; 2,923 mink; 106 otter; 67 fisher and 192 bear.

The Canadian champion two year old Ayrshire heifer, "Princess Beatrice" 3rd, owned and bred by the Nova Scotia Agricultural College, has another record in supply of milk and butter fat. From January 12 to March 18 she produced 4,010 pounds of milk, an average of 67 pounds a day. Butter fat was 220 pounds for the same period, equal to 275 pounds of butter.

Their Majesties King George and Queen Mary paid a private visit to the first Exhibition of Paintings and Sculpture by Canadian artists which is being shown in London. Among the exhibits are pictures by Leonard Richmond of Lake Moraine, Lake O'Hara and Lake Louise, painted by the artist during his visit to the Canadian Rockies last year with the Trail Riders.

According to an announcement by D. C. Coleman, vice-president and general manager of western lines of the C.P.R. at Winnipeg, the Canadian Pacific Railway is to construct a hotel of 200 guest rooms on a downtown site at Regina. This hotel, a being built in response to a request voiced on many occasions by representatives of the citizens of Regina.

Low Brothers PAINTS & VARNISHES

Paint Your Home, Too

Your home, too, deserves a coat of paint—it needs a protection against the ravages of the elements and fire.

A coat of paint will not only protect but will beautify your home and enhance its value. You yourself will feel a new pride in the new appearance of your home and in the prestige it will afford you in your community.

Your home deserves the best, that is why we suggest that you use

Low Brothers HIGH STANDARD PAINT

Owing to the excellence of the materials used and the care exercised in its manufacture, "High Standard" Paint is the most economical that you can buy.

It will cover much more than a cheaper paint and will last from two to four years longer.

Try it when next you paint, "High Standard" will render you the best of service.

R. H. THOMPSON
Phone 46 Georgetown

Interior Floor Paint
Floors that are painted with Low Brothers' Hard Drying Floor Paint require no scrubbing—simply mop them and your floors will be always clean. It is a floor enamel, which dries overnight to a high gloss finish. Very easy to apply.

Porch Floor Paint
Is made especially for verandah floors. It will last much longer than any paint you have ever tried, for it is a hard, high-gloss varnish paint. Heat, frost, rain, or snow, the scraping of feet, will not effect it, when properly applied.

Auto Gloss
Any amateur can finish his car in a few hours with Auto-Gloss. It is an enamel finish of great depth and beauty, sold in a full range of popular colors. It flows on easily, leaves no brush marks and dries quickly to a permanent finish.

Neptunite Varnish Stain
Neptunite is a high grade Varnish Stain for Floors, Furniture and Woodwork of all kinds. Varnishes and Stains in one easy operation. The stain colors are non-fading. Neptunite has splendid wearing qualities and is not easily marred.

Here and There

Lord and Lady Alton have left Canada, on board the Canadian Pacific liner "Montrose," for home. The distinguished general was received enthusiastically in every city throughout his tour of the Dominion. He delivered addresses showing the importance of the capture of Palestine to the Allies in the Great War.

V. C. Vickers, managing director of Messrs. Vickers Ltd., London, England, who arrived in Canada recently on board the Canadian Pacific liner "Empress of Canada," reported that the shipbuilding industry both in China and Japan was in a healthier condition than for many years past, with shipbuilders favoring the motor ship.

Travelling right across the Dominion, exclusively on Canadian Pacific lines and in the palatial special car "Loch Lomond," Her Grace the Duchess of Atholl, whose family seat is at Banff, Scotland, will make acquaintance for the first time in her life with the world famous resort in the Canadian Rockies, which took its name from her Scottish home.

A. Hatton, general superintendent of transportation for the Canadian Pacific Railway, has announced the intention of the company to raise the embargo against the loading of grain to Fort William and Port Arthur and the milling companies and elevators at Winnipeg. This is due to the anticipation of the opening of navigation on the Great Lakes about April 20.

The total yield of wheat in Canada for 1925, as finally estimated by the Dominion Bureau of Statistics, is 416,849,700 bushels, the second largest on record, having been exceeded only by the 1923 crop. The value of this crop is estimated at \$405,110,200, or over \$53 per capita of Canadian population. The average wheat yield was 19.2 bushels per acre.

A general survey of reports by the Canadian Pacific Railway on agricultural conditions throughout the West shows that farmers are pleased with present conditions and speak optimistically on the season's outlook. Sufficient moisture for spring crops seems to be assured. Livestock wintered well. Adequate supplies of seed are available and no shortage of labor is expected.

A special C. P. R. train carrying 435 settlers from the S.S. "Montcalm" reached Winnipeg recently. Among the passengers were thirty-one British families who came under the 3,000 family settlement scheme. There was one party of 10 German-speaking Catholics, and the Salvation Army, under Captain Shays, brought out a party of twenty young lads going to British Columbia.

It has been announced by the passenger department of the C. P. R. at Winnipeg that negotiations have been complete with the Central Canada Air Lines Limited, for an air service between Kenora and the new gold fields at Long Lake and Red Lake. A regular daily service is to be inaugurated about May 24 in connection with the C.P.R. from Kenora and during summer services will be run between Kenora and Duluth.

The recent fire at the Banff Springs Hotel, which resulted in the destruction of the north wing with about seventy rooms, will have little effect on the coming tourist season. During the past winter the company has built an annex with 100 rooms with bath and with the central stairs tower and the south wing of the old building that were saved, there will be a total of 313 rooms available by July 1, or more than were in use last year.

Big Game Hunter gets Live Wolves

1. Rover and Patsy on right, Captain Doudera, hero of the chase, with his shot trophy over his shoulder. 2. Rover and Patsy photographed on arrival at the C.P.R. Winnipeg Station, Montreal.

Fulfilling his promise to James Walker, Mayor of New York, Captain Frank Doudera, well known sportsman, arrived at the Windsor Pacific Windsor Station in Montreal recently from Northern Ontario with two live wolves, which he captured on Lake Temiskaming, at the junction where the River Kippewa flows into the lake. The two animals, named Patsy and Rover, are intended for the Bronx Zoo.

When taken out of their cages in the baggage room at the Windsor Station, both Patsy and Rover displayed decidedly nervous tendencies. Patsy is an ash blonde, endowed by nature with a pearly grey coat of fur, lined with red, which glisters a little in the sun. Rover seemed to be a bit worn in spots, but his fur, whatever there is of it, is a bluish black, closely resembling a blue fox. Rover was inclined to rove. When taken into the express yards he buried his head in the snow. After a snow-casting performance he insisted on climbing over the fence via mounds of snow, but a strong hand at the leash restrained him.

Patsy turned out to be a mild, good-natured child who accepted the overtures of her audience with becoming meekness. A pat on the head from a total stranger solicited a kind look from the young lady's large grey eyes which peep forth like pretty buttons on old-fashioned shoes.

Rover was not so meek. At the same-pat on the head from the same total stranger he snarled bitterly and would have avenged the indignity with blood but for the muzzle.

The wolves are only about ten months old. Rover weighs one hundred pounds and measures about five feet from the tip of his snow-washed nose to the end of his scraggy tail. Patsy weighs about eighty-five pounds and is several inches shorter than Rover. In addition to the two live wolves, the captain has seven dead ones.

Doudera claims a record in shooting the last wolf after a chase which lasted only three hours and forty minutes. Usually it takes several days to corner a wolf. The animal takes long, powerful strides and covers ground at an amazing pace. But in the present case there had been a heavy fall of snow and the wolf had floundered along until Doudera came within fifteen feet. The animal then turned, bared his fangs, let loose a series of howls and leaped at his pursuer. The captain pulled the trigger of his gun and a bullet pierced the wolf's heart and shoulder.

During the expedition the hunter was aided by Fred Arnold, who operates the Trem-Skip chain of camps. Captain Doudera brings with him six thousand feet of film showing authentic pictures of wolves in their native haunts. The sportsman reported that game was very plentiful in the Lake Temiskaming district. Deer are to be found within a few hundred yards from camp.

Fire Threatens Our National Heritage

Carelessness Destroys 3,000,000 acres annually of Canadian Forest

Loss of standing timber by fire continues to be appalling. On the average, over 3,500 million board feet are destroyed annually. The forests of Canada are being depleted at a rate they cannot possibly withstand; more than half of this depletion is due to fire, insects and decay. The future of the forest industry is just as dependent on the seedling trees and young growth as the pulp and paper and lumber mills, and industry generally, are dependent on mature timber—both must be saved from the ravages of fire.

In addition to the shelter afforded by the forest to the farmer and his stock, settlers in forested regions are vitally dependent on the woods for winter employment. Care with fire in land-clearing operations is all essential—burned timber pays no wages.

Canada has the finest inland fishing in the world, but these splendid food and game fish require clean cold water in the streams to ensure prolific reproduction. Forest fires are inimical to fish life.

Game animals attract foreign tourists and induce Canadians to seek pleasure, health and adventure in the great outdoors. These animals are distinctly a forest resource—utterly dependent on it for protection and food. Forest fires are most destructive of such wild life.

Ninety per cent of the forest fires are caused by carelessness. Are you doing your part to prevent this wanton waste and destruction?
