-Laura C. Burroughs. GO TO SUNDAY SCHOOL DAY.

SUNDAY, MAY 9TH, 1926 Is sufficient attention being given o the religious training and development of the children and youth o to-day? Are parents guiding their children aright, or are they shirking their duty? If they are shirking, why is it? Is home life ideal? Are parents trying to save themselves trouble and responsibility?
The establishment of a home brings ents and to their children, to the world around them and to future generations. Schools, churches, Sunday Schools and society cannot take the place of the home or assume the parents' duties, but they should be allies of the home in securing a better citizenship and in producing a igher type of moral character. To give prominence to these ques tions so that they may receive more careful consideration than is now being given, a day has been set apart throughout the Dominion to be ob-served as Go to Sunday School Day. It has been felt that in the Sunday School we have an institution working definitely and effectively for th levelopment of moral character and the training of Christian citizenship and it should have the whole-hearted co-operation of every parent and every home. An effort is being made on this day, Sunday, May 9th, to secure a greatly increased attendance at the Sunday School and to enroll membership which has as its ideal During the preceding week, May 2eligious welfare of little children by the observance of Children's Week,

ing, the homes and the Sunday School are brought into closer co-operation. As the observance of Go to Sunday School Day coincides with Mothers' Day, a special program for use in the Sunday School and Church services has been prepared, and is issued free of charge by the Ontario Religious large measure the character of the citizenship of to-morrow.
