Canada's First High-Speed European-Type Light Car

The distinctive body lines of the New Overland Whippet resemble the smartest custom-built automobile of America and Continental Europe. Stand in front of this car and you can imagine yourself on the boulevard of France.

It will travel 55 miles an hour in perfect comfort... pick-up in 15 seconds from 5 to 30 miles an hour... go 35 miles on a gallon of gasoline... over 1000 miles on a gallon of oil.

Measured tests show that the Overland Whippet, with its 4-wheel brakes, will stop in two car lengths from a speed of 25 miles an hour.

The Overland Whippet is 5 feet, 3 inches high... not as tall as the average man. Yet it provides more room and comfort than you've ever found in any automobile of this class before.

J. N. O'Neill & Son Georgetown

Do You Know This?

SPARK control on Studebaker cars is automatic. The automatic control never forgets to retard the spark—it is governed by engine speed. That means plenty of pep for getaway and hill climbing and added miles of perfect service from your motor.

REPENTANCE

We cannot call it back again—the word
That leaped from us and lived, and shames us still,
It comes to us at midnight. 'Tis heard
When dawn slips gently from behind the hill.

We cannot call it back again—the look
The gleam of anger, the unkindly stare,
For life has graven its image in her book
And merrily turns the page and finds it there.

We cannot call it back again—the deed
Repeated ere a summer's sun had
It will not die, and human hearts still bleed,
Because of actions we would fain forget.

We cannot call them back—the wasted days,
The words, the looks, the deeds,
New deeds of kindness and new words of praise
That these may live when all our faults are dead.

NEWSPAPER MEN SEE DEVELOPMENT IN OLD QUEBEC

Bright Future For Industrial Enterprises Due to Unlimited Water Power.

As most of our readers are already aware, the Herald was represented at the recent convention of the Canadian Newspaper held in the historic Ancient Capital of Quebec, following which a two-day boat trip down the Lawrence and up the Saguenay provided an opportunity for our personal investigation into the tremendous developments which have been and are about to be made in the Chicoutimi district, 227 miles north of Old Quebec. While it is our intention to publish short articles based on the various places visited and the dissemination of information secured on a multitude of subjects, this week we shall deal with the industrial development of the Chicoutimi district, which at the present time leads all Canada.

Of the industrial future of the Chicoutimi district much has been said in recent years, so much indeed that one could hardly comprehend the possibilities said to exist without a more or less intimate knowledge of the conditions which obtain there. It was with this idea in mind that the publisher of the weekly newspapers of Canada arranged to make the trip up the Saguenay, to inform themselves in person and by a personal visit to understand more clearly the reasons for the growing interest in Quebec as an industrial province.

For many years Quebec has been largely disregarded as being of importance in agriculture or industry. Large sections of the Province consist of fertile plains, which are extensively cultivated by the French-Canadian farmer, but the more or less antiquated methods of farming in use have led the world at large to give little thought to Quebec as a province of any great agricultural utility. Nevertheless, on a railway trip from Montreal to Quebec one sees through the forest and the abundance of softwoods suitable for pulp and lumber, but also to the fact that the many rivers crossing them afford great transportation facilities and that many of these rivers supply water power, which is being developed by the pulp and paper industry.

A general statement of this kind is more easily understood if definite instances are cited, therefore it may be of interest to recount the experiences of the press party on their trip of investigation and let the facts speak for themselves.

The party left Quebec on Friday, June 13th at one o'clock, on the Canadian Steamship Lines vessel "Cape Diamond," proceeding down the Saguenay River. Here a steamer of the same name was waiting to take the party to the palatial "Manor Richelieu" Hotel, Murray Bay, which was reached at 11 o'clock. The party had dinner at the hotel and then proceeded to the Saguenay River, where they had dinner at the "Manor Richelieu" Hotel, Murray Bay, which was reached at 11 o'clock. The party had dinner at the hotel and then proceeded to the Saguenay River, where they had dinner at the "Manor Richelieu" Hotel, Murray Bay, which was reached at 11 o'clock.

BERY DEALER FINED FOR USING UNDERIZED BOXES

According to a provision of the Fruit Act of the Dominion, boxes containing berries or currants packed in Canada for sale must contain when level full as nearly as practicable 35 or 67.2 cubic inches, which is the equivalent of one full pint or one full quart.

The first charge for violation of this law was laid before Magistrate Shields at Ottawa on June 13th. The defendant was accused of offering American strawberries for sale in 4x5 quart berry boxes formerly used. He was found guilty and a minimum fine of ten dollars was imposed.

The Dominion Fruit Commissioner expresses the hope that this conviction will serve as a warning to other dealers in berries throughout the district. He also urges that consumers should always inspect the full-sized boxes of either pint or one quart when purchasing berries.

(Issued by the Director of Public Health, Dominion Dept. of Agriculture, Ottawa.)

PROMOTION EXAMINATIONS STEWARTTOWN SCHOOL

Jr. IV. to Sr. IV.—Honors—Arthur Hazelwood, Pass—Elizabeth Bonathan, Lena Harris, Mary Jenkins, Mary Smith, Margaret Hobbs, Bobbie Harris, Pass—Gerald Graham.

Mixed examinations—Miss MacLean, Dorothy MacLean, Charlie MacLean, Helen MacLean.

M. E. PEDEN, Teacher.

Changes in Election Law

Some important changes were made in the election law by the Legislature at its session. The time of the election has to be held in a constituency is reduced from three to two months; polling booths will be kept open till 7 o'clock instead of 6; if candidate decides to retire after the ballots are printed the Clerk of the Peace is to be notified and a notice must be posted up in the polling booth.

EARNEST EXPECTATIONS

Romans 8: 17-21.

Believing souls are longing
With rapture to behold
Their absent loved ones thronging
The streets of shining gold
They passed beyond the portals
Into the realms of light
Where all the fair spiritual
In grand pursuits unite.

By words which He has spoken
Who rules the worlds on high
For circles which are broken
A brighter day draws nigh.
The absent ones are dwelling
Around the Saviour's throne;
In songs all songs exceeding,
They make His praises known.

Those who receive salvation
Through Him who once was slain
Share in the expectation
That they shall meet again.
On earth a while He makes them
The objects of His love,
And then in triumph takes them
To dwell with Him above.

This earnest expectation
At length fulfilled shall be;
And saints of every nation
Their risen Lord shall see.
Through Him the victory winning,
They in His joy shall share;
What here had its beginning
Will be completed there.
Bridgetown, Ont., 1926. T. Watson.

MUNICIPALITY RESPONSIBLE

A judgment in a court action at Owen Sound last Saturday is of interest to every urban municipality in Ontario, as it affects their liability from contaminated water. Miss Susie McQueen sued the city of the Public Utility Commission and the Board of Health for damages arising out of an attack of typhoid because of a contaminated water supply furnished the people of that city. In his finding Justice Logie rebuked all these bodies for not supplying the city with pure water. He stressed the fact that despite repeated warnings chlorination of the city's water supply had been discontinued and allowed to run until the community was caught in an epidemic of typhoid. Miss McQueen was awarded damages to the extent of \$2,000. Fifteen days was granted the defendants in which to enter an appeal, which will likely be done, since the case is regarded in Owen Sound as a test one. In case the Supreme Court upholds the judgment there will in all probability be a big bill of damages for the city to pay. All other municipalities will have to exercise greater care.

Boys Get Spanking

In Magistrate P. Moore's Court at Acton, a gang of seven boys were found guilty of robbing stores. The magistrate said that he did not wish to take extreme measures in the matter of punishment, such as fines or costs, which the parents would necessarily have to pay, but he did intend, however, to inflict punishment which they would remember. Each lad was required to make restitution for the amount he had stolen or destroyed, and this amount their respective parents were directed to see they carried by personal work during the school holidays. The boys were also sentenced to from four to eight lashes, according to amount of pilfering, to be inflicted by his parents in the presence and under the direction of Chief of Police Mr. Pearson. The magistrate further required a pledge from each lad and his parents that he would attend Sunday School regularly for a year.

Normal Public School Senior Room

Entrance candidates, alphabetically arranged—Casey, Addie; Coupland, Marjorie; Hunter, Mary; Hunter, Clarence; Murray, Martha; Murray, Jack; McKeelin, Phyllis; Nixon, Jessie; Watson, Dorothy; Watson, Jean; Jr. IV. to Sr. IV.—Names in order of merit—Stuart McDonald, Mary Coupland (mixed), Craig Bell, Jr. III. to Jr. IV.—George Biggill, Elgie Varry, Bud Johnson, Jack Rankin, Pat Harvey (arth.), Jimmie Harvey (arth.).

Jr. III. to Sr. III.—Marie Smelle, Willie Roisher, Horace Biggill, Herbert Wardlaw, Len Murray (spelling), Harlan Laid, Harry Barnhill, Isobel Roisher, Roy Coupland, Mildred Caskey, Lloyd Hunter, Dn. on trial—Ted South.

BEATRICE MAXWELL, Prin.
