Mrs. Wilson was one of the representatives at the first organization meeting of the United Farm Women of Ontario. The address read as follows:

Dear Mrs. Wilson—On this eighth birthday of the United Farm Women's Club of Ashgrove, we the members of that organization, wish to show in some what we have done for you and your splendid efforts in organizing and always upholding our club. For eight years now we have been benefited by the meetings whose principal object is to keep the conditions on the farm generally, indoors and outdoors, business and social.

The United Farmers thank you for the time you have given us and thank you for the things that have learned at demonstrations, and both thank you for the saving of money by ordering meat in sufficient quantities such large quantities as to save considerable money for other improvements.

Not the least important outcome of the organizations has been the increased interest in the health of women neighbors through getting better acquainted at social gatherings such as this one, where we meet for pleasure and to help each other. Thank you for your splendid hospitality and your honesty in giving all a good time and making these birthday gathering events to be remembered among our members.

During the last year there has been a new branch formed of the U.F.Y.P.O. who are doing their best to develop the work of the club for the future.

It was due to your initiative that this group came into being. As a very small token of the gratitude we feel for your interest, service and hospitality, we wish to thank these ladies who are valuable only as carriers of our sincere thanks.

Miss Wilson made an appropriate reply and a hearty vote of thanks was tendered those who assisted with the entertainment. The meeting was closed with the National Anthem after which the ladies served delicious refreshments, including a four-storey birthday cake, beautifully iced and bearing eight lighted candles.

One Value Of Tourist Trade

Day after day there is a steady stream of tourists passing through Georgetown, and along the highways of Western Ontario. One day this week were noticed cars from Michigan, New York, Indiana, Illinois, North Dakota, Florida and Saskatchewan. The whole world, indeed, seems to be on wheels. The tourist camp throughout the country are filled nightly with travellers from every state in the Union who have taken to the great outdoors.

Apart from the dollar and cents aspect of the tourist industry, the

stream of Americans will be a good thing for Canada in that it will bring about a better knowledge of the Dominion.

The ignorance of the average American fifty miles from the border above Canada has been notorious. We have been to a hen, frozen, forest country, inhabited by Indians, cowboys and Eskimos, with an occasional odd settler.

The American tourists open their eyes in amazement as they motor through a country which is beauty and prosperity.

They have never seen anything like

the Great Lakes, the Great Smoky

Mountains, the Rockies, the

Sierras, the Andes, the Andes,

the Rockies, the Rockies, the Rockies,

the Rockies, the Rockies, the Rockies,
