A third lad who was with them when the theft was committed, left home. He has his charge still to answer. MORAL TRAINING IN SCHOOLS. On the approaching re-opening of the schools the Bowman's Statesman has a series of timely articles respecting the influence of the public schools. Among these is quoted the following very pointed and rational viewpoint of J. M. Denyes, B.A., our own observant and experienced inspector of public schools for Halton: "The schools must supply the moral training which the home and churches have failed to give. It is impossible to separate moral culture from any other form of culture to be observed in the schools of the province. For good citizenship and culture and every other form of intellectual skill must be interpreted in the terms of the pupil's ability to apply them to everyday life. It is only when culture is applied to life, in a moral sense, that there is the highest form of citizenship, and we believe all experienced teachers will agree in the main with his carefully thought-out opinion. Every school teacher, therefore, should be a practical Christian, man or woman. The school-room next to the home is the best place to inculcate high moral principles. The great problems of the day are social, commercial and religious, and each of these must be approached from the moral viewpoint, for the three problems are inseparable from morality. Neither learning, skill nor wealth, can solve the social and the economic problems of the age; but what is needed is a moral consciousness. If the schools can implant in the minds of the scholars the proper conception of obedience, honesty, trustfulness and all the allied traits which accompany those characteristics, much will have been accomplished in the direction of building a moral citizenship which will make its influence felt in the life of the individual citizen. It is not sufficient, so far as morals are concerned. In other words, it is not enough to give the pupils weekly or daily lectures on morality; the requirements being actual and constant daily practice." Sixteen boys have been placed with farmers in Halton County through the operation of the King Government. Fleming, These are the first boys placed in the county under the new immigration policy.

To the Electors of Halton County:-

15 years of the greatest era of progress and prosperity Canada has ever known (1896-1911) closed with the defeat of Laurier's Liberal Government in 1911. This was succeeded in 1911 by the Borden and Meighen Conservative Governments, which came to an end in 1921. The concluding years of this regime were characterized by indecision, inefficiency, extravagance, and huge additions to the public debt. In 1921 the Liberal Government of Mr. Mackenzie King, succeeded the Meighen Government. The affairs of Canada were in the most chaotic condition, the going was hard, world affairs were at a low ebb. Since that time, with the assistance of the Progressive, the affairs of Government have been put on a sound basis. Public Expenditure has been cut down, the national debt is being reduced; the Railways are being soundly administered, and will soon be on a paying basis. There is a revival of Agriculture; good prices are being obtained for all products of the soil, and farmers are again becoming prosperous. Immigration to Canada is again assuming splendid proportions, and in the first quarter of this year, over 20,000 Canadians returned home from the U.S. Sales Taxes have been reduced; the 2c postage is restored, and will save the people thousands of dollars in Halton alone; the duty on Agricultural Implements and Motor Cars has been reduced in a manner resulting in larger sales, and better profits to these industries, and at the same time giving cheaper implements and Motor Cars to the people. Mr. Robt has promised that further reductions in such Taxation will take place, if the King Government is returned on Sept. 14th next. Its return will mean a continuation, and extension of those policies which have been so effective in restoring good times to Canada, and will bring in an era of prosperity undreamed of in past times. These are the real issues, to obscure them and draw herring across the trail, all kinds of petty scandals are being shouted from the housetops; this is done to befog the issues, obscure the facts, and divert public attention from the achievements of the King Administration, and frighten the people into voting for Meighen Candidates. Take no chances on this issue—Canada's Destiny is at stake—mark your ballot on Sept. 14 for W. J. L. HAMPSHIRE, Liberal candidate for Halton County, in the interests of Good Government, and a new era of progress and prosperity will surely follow. Meighen cannot win—Give King a good majority. W. J. L. HAMPSHIRE, Liberal Candidate. Your Vote and Influence are Respectfully Appealed For
